NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies and Going Concern

Basis of Presentation – CareSource PASSE (CSPASSE) statutory-basis financial statements are presented on the basis of accounting practices prescribed or permitted by the Arkansas Insurance Department (AID). The AID requires that insurance companies domiciled in the State of Arkansas (state) prepare their statutory financial statements in accordance with the National Association of Insurance Commissioners *Accounting Practices and Procedures Manual* (NAIC AP&P), subject to any deviation prescribed or permitted by the AID.

Accounting practices and procedures of the NAIC, as prescribed or permitted by the insurance department of the applicable states of domicile, comprise a comprehensive basis of accounting other than accounting principles generally accepted in the United States (GAAP).

No significant differences exist between prescribed or permitted practices by the State of Arkansas and NAIC AP&P which materially affect the statutory basis net income or capital and surplus, as illustrated in the table below.

- (1) For fixed-rate agency mortgage-backed securities, Clearwater Analytics calculates prepayment speeds utilizing Mortgage Industry Advisory Corporation (MIAC) Mortgage Industry Medians (MIMs). MIMs are derived from a semi-monthly dealer-consensus survey of long-term prepayment projections. For other mortgage-backed, loan-backed, and structured securities, Clearwater utilizes prepayment assumptions from Moody's Analytics. Moody's applies a flat economic credit model and utilizes a vector of multiple monthly speeds as opposed to a single speed for more robust projections. In instances where Moody's projections are not available, Clearwater uses data from Reuters, which utilizes the median prepayment speed from contributors' models.

- (4) All impaired securities (fair value is less than cost or amortized cost) for which an other than temporary impairment has not been recognized in earnings as a realized loss (including securities with a recognized other-than-temporary impairment for non-interest related declines when a non-recognized interest related impairment remains):

a. The aggregate amount of unrealized losses:					
	1. Less than 12 Months	\$		2	
	2. 12 Months or Longer	\$		0	
b. The aggregate related fair value of securities with unrealized losses:					
	1. Less than 12 Months	\$		62,998	
	2. 12 Months or Longer	\$		0	

- (5) Management regularly reviews the value of CSPASSE's investments. If the value of any investment falls below its cost basis, the decline in value is analyzed to determine whether it is other-than-temporary impairment. The decision to record an impairment loss incorporates both quantitative criteria and qualitative information. CSPASSE considers a number of factors including, but not limited to: (a) the length of time and the extent to which the fair value has been less than book value, (b) the financial condition and near term prospects of the issuer, (c.i.) for non-interest-related declines in corporate and government bonds, the intent and ability of CSPASSE to retain its investment for a period of time sufficient to allow for any anticipated recovery in value, (c.ii.) for interest related declines in corporate and government bonds, the intent of CSPASSE to sell the investment at the reporting date, (c.iii.) for mortgage-backed securities, whether CSPASSE expects to recover the entire amortized cost basis of the security and whether CSPASSE has the intent to sell or intent and ability to hold the investments for a period of time sufficient to allow for any anticipated recovery in value, (d) whether the debtor is current on interest and principal payments, and (e) general market conditions and industry or sector specific factors.

CSPASSE does not hold any investments as of September 30, 2024 that are subject to redemption restrictions or penalties therefore all holdings can be liquidated immediately upon request, without penalty.

 - A. Assets and Liabilities Measured at Fair Value

(1) Fair Value Measurements at Reporting Date

CSPASSE uses fair value measurements to record the fair value of certain assets and to estimate the fair value of financial instruments not recorded at fair value but required to be disclosed at fair value.

Fair value is defined as the price that would be received to sell an asset or transfer a liability in an orderly transaction between market participants at the measurement date. CSPASSE's financial assets carried at fair value have been classified, for disclosure purposes, based on a hierarchy that prioritizes inputs to valuation techniques used to measure fair value into three levels.

- Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities. CSPASSE's Level 1 assets and liabilities primarily include exchange-traded equity securities.

- Level 2 – Inputs include quoted prices for similar assets or liabilities in active markets, quoted prices from those willing to trade in markets that are not active, or other inputs that are observable or can be corroborated by market data for the term of the instrument. Such inputs include market interest rates and volatilities, spreads, and yield curves.

- Level 3 – Certain inputs are unobservable (supported by little or no market activity) and significant to the fair value measurement. Unobservable inputs reflect CSPASSE's best estimate of what hypothetical market participants would use to determine a transaction price for the asset or liability at the reporting date.

The following discussion described the valuation methodologies utilized by CSPASSE for assets measured or disclosed at fair value. Fair value estimates are made at a specific point in time, based on available market information and judgments about the financial instrument, including discount rates, estimates of timing, amount of expected future cash flows, and the credit standing of the issuer.

Debt and Equity Securities

The fair values of actively traded debt and equity securities are determined through the use of third-party pricing services utilizing market observable inputs. Certain mortgage-backed securities for which CSPASSE does not receive public quotations or for which CSPASSE believes market activity to reflect distressed sales are valued using current market-consistent rates applicable to yield, credit quality and maturity of each security. When available, market observable inputs are used to estimate the fair values of these securities.

STATEMENT AS OF SEPTEMBER 30, 2024 OF THE CareSource PASSE LLC

Cash, Cash Equivalents, and Short-Term Investments

The fair values of cash and cash equivalents are based on quoted market prices. Short term investments are stated at amortized cost, which approximates fair value.

Fair Value Measurements at Reporting Date

There were no significant transfers between Level 1 and Level 2 securities for the period ended September 30, 2024.

Description for each class of asset or liability	(Level 1)	(Level 2)	(Level 3)	Net Asset Value (NAV)	Total

(3) CSPASSE recognizes transfers between fair value levels at the end of each reporting period.
