#### A. Accounting Practices

The accompanying statutory financial statements of Coventry Health Care of Kansas, Inc. ("the Company"), indirectly a wholly-owned subsidiary of CVS Health Corporation ("CVS Health"), have been prepared in conformity with accounting practices prescribed or permitted by the Kansas Insurance Department ("Kansas Department") ("Kansas Accounting Practices"). The Kansas Department recognizes only statutory accounting practices prescribed or permitted by the State of Kansas for determining and reporting the financial condition and results of operations of an insurance company, which include accounting practices and procedures adopted by the National Association of Insurance Commissioners' ("NAIC") *Accounting Practices and Procedures Manual* ("NAIC SAP").

A reconciliation of the Company's net income and surplus between NAIC SAP and practices prescribed and permitted by the State of Kansas for the periods ended March 31, 2022 and December 31, 2021 is as follows:

#### B. Use of Estimates in the Preparation of the Financial Statements

The preparation of these financial statements in conformity with Kansas Accounting Practices requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and revenues and expenses. Actual results could differ from those estimates.

#### C. Accounting Policies

The Company applies the following significant accounting policies:

(1) No significant change.

(2) Bonds

Bonds, which include special deposits, are carried at amortized cost except for those bonds with an NAIC designation of 3 through 6, which are carried at the lower of amortized cost or fair value. The amount carried at fair value is not material to the financial statements. Bond premiums and discounts are amortized using the scientific interest method. When quoted prices in active markets for identical assets are available, the Company uses these quoted market prices to determine the fair value of bonds. This is used primarily for U.S. government securities. In other cases where a quoted market price for identical assets in an active market is either not available or not observable, the Company estimates fair values using valuation methodologies based on available and observable market information or by using a matrix pricing model. If quoted market prices are not available, the Company determines fair value using broker quotes or an internal analysis of each investment's financial performance and cash flow projections. The Company had no investments where fair value was determined using broker quotes or an internal analysis of financial performance and cash flow projections at March 31, 2022. Bonds include all investments whose maturity is greater than one year when purchased. All adjustments between amortized cost and carrying value are reflected in unrealized capital gains and losses and are reported as direct adjustments to surplus.

Bonds are recorded as purchases or sales on the trade date.

## NOTES TO FINANCIAL STATEMENTS

The Company periodically reviews its bonds to determine whether a decline in fair value below the carrying value is other-than-temporary. For bonds, other than loan-backed and structured securities ("LB&SS") discussed in Note 1C. (6) below, an other-than-temporary impairment ("OTTI") shall be recorded if it is probable that the Company will be unable to collect all amounts due according to the contractual terms in effect at the date of acquisition. Declines deemed to be OTTI in the cost basis are recognized as realized capital losses. Yield-related impairments are deemed other-than-temporary when the Company intends to sell an investment at the reporting date before recovery of the cost of the investment.

The Company analyzes all relevant facts and circumstances for each investment when performing its analysis to determine whether an OTTI exists. Among the factors considered in evaluating whether a decline is other-than-temporary, management considers whether the decline in fair value results from a change in the quality of the investment security itself, whether the decline results from a downward movement in the market as a whole, the prospects for realizing the carrying value of the bond based on the investee's current and short-term prospects for recovery and other factors. The risks inherent in assessing the impairment of an investment include the risk that market factors may differ from the Company's expectations and the risk that facts and circumstances factored into its assessment may change with the passage of time. Unexpected changes to market factors and circumstances that were not present in past reporting periods may result in a current period decision to sell securities that were not other-than-temporarily-impaired in prior reporting periods.

The Company had no Securities Valuation Office-identified investments that are being reported at a different measurement method from the prior year annual statement.

(3) through (5): No significant change.

### (6) Loan-Backed and Structured Securities

LB&SS are carried at amortized cost adjusted for unamortized premiums and discounts and are accounted for using the retrospective adjustment method. Premiums and discounts on loan-backed and structured securities are amortized using the scientific method over the estimated remaining term of the securities, adjusted for anticipated prepayments.

For LB&SS, the Company records OTTI when the fair value of the loan-backed or structured security is less than the amortized cost basis at the balance sheet date and (1) the Company intends to sell the investment, or (2) the Company does not have the intent and ability to retain the investment for the time sufficient to recover the amortized cost basis, or (3) the Company does not expect to recover the entire amortized cost basis of the security, even if it does not intend to sell the security and has the intent and ability to hold. If it is determined an OTTI has occurred because of (1) or (2), the amount of the OTTI is equal to the difference between the amortized cost and the fair value of the security at the Balance Sheet date and this difference is recorded as a realized capital loss. If it is determined an OTTI has occurred because of (3), the amount of the OTTI is equal to the difference between the amortized cost and the present value of cash flows expected to be collected, discounted at the loan-backed or structured security's effective interest rate and this difference is also accounted for as a realized capital loss.

(7) through (20): No significant change.

### D. Going Concern

As of May 11, 2022, management evaluated whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern and management has determined that it is not probable that the Company will be unable to meet its obligations as they become due within one year after the financial statements are available to be issued. Management will continuously evaluate the Company's ability to continue as a going concern and will take appropriate action and will make appropriate disclosures if there is any change in any condition or events that would raise substantial doubt about the Company's ability to continue as a going concern.

### 2. Accounting Changes and Corrections of Errors

### 3. Business Combinations and Goodwill

**NOTES TO FINANCIAL STATEMENTS**

sufficient to recover the amortized cost basis or (3) present value of cash flows expected to be collected is less than the amortized cost basis of the securities in accordance with Statements of Statutory Accounting Principles ("SSAP") No. 43R, Loan-Backed and Structured Securities ("SSAP No. 43R") at March 31, 2022.

(3) The Company had no recognized OTTI on loan-backed and structured securities currently held, in which the present value of cash flows expected to be collected is less than the amortized cost basis at the reporting date March 31, 2022.

(4) The Company's unrealized loss position on loan-backed and structured securities held by the Company at March 31, 2022 is as follows:

a. The aggregate amount of unrealized losses:		
1. Less than 12 Months	\$	(18,721)
2. 12 Months or Longer		—
b. The aggregate related fair value of securities with unrealized losses:		
1. Less than 12 Months	\$	1,979,073
2. 12 Months or Longer		—

(5) The Company has reviewed the loan-backed and structured securities in accordance with SSAP No. 43R in the table above and has concluded that these are performing assets generating investment income to support the needs of the business. Furthermore, the Company has no intention to sell the securities at March 31, 2022 before their cost can be recovered and does have the intent and ability to retain the securities for the time sufficient to recover the amortized cost basis; therefore, no OTTI write-down to fair value was determined to have occurred on these securities.

- (3) Transfers in and out of all levels are recognized at the end of the reporting period of which the transfer occurred.
- (4) The Company's fair value measurement valuation techniques are described in B. below.

## NOTES TO FINANCIAL STATEMENTS

(5) The Company did not have any derivative instruments at March 31, 2022.

- B. The fair values of these instruments are based on valuations that include inputs that can be classified within one of three levels of a hierarchy. The following are the levels of the hierarchy and a brief description of the type of valuation information (“inputs”) that qualifies a financial asset or liability for each level:

**Level 1** - Unadjusted quoted prices for identical assets or liabilities in active markets.

**Level 2** - Inputs other than Level 1 that are based on observable market data. These include: quoted prices for similar assets in active markets, quoted prices for identical assets in inactive markets, inputs that are observable that are not prices (such as interest rates and credit risks) and inputs that are derived from or corroborated by observable markets.

**Level 3** - Developed from unobservable data, reflecting the Company's own assumptions.

Financial assets and liabilities are classified based upon the lowest level of input that is significant to the valuation. When quoted prices in active markets for identical assets and liabilities are available, the Company uses these quoted market prices to determine the fair value of financial assets and liabilities and classifies these assets and liabilities as Level 1. In other cases where a quoted market price for identical assets and liabilities in an active market is either not available or not observable, the Company estimates fair value using valuation methodologies based on available and observable market information or by using a matrix pricing model. These financial assets and liabilities would then be classified as Level 2. If quoted market prices are not available, the Company determines fair value using broker quotes or an internal analysis of each investment's financial performance and cash flow projections. Thus, financial assets and liabilities may be classified in Level 3 even though there may be some significant inputs that may be observable.

- C. The carrying values and estimated fair values of the Company's financial instruments at March 31, 2022 were as follows:

Type of Financial Instrument	Aggregate Fair Value	Admitted Assets	(Level 1)	(Level 2)	(Level 3)	Net Asset Value (NAV)	Not Practicable (Carrying Value)
Bonds, short-term, and cash equivalents	\$ 47,713,163	\$ 47,917,677	\$ 6,433,556	\$ 41,279,607	\$ —	\$ —	\$ —
Common stocks	\$ 1,703,290	\$ 1,703,290	\$ 1,703,290	\$ —	\$ —	\$ —	\$ —

In evaluating the Company's management of interest rate and liquidity risk and currency exposures, the fair values of all assets and liabilities should be taken into consideration, not only those presented above.

- D. The Company did not have any financial instruments where it was not practicable to estimate the fair value.  
 E. The Company has not elected to use the net asset value practical expedient to fair value to measure its investments.
