C. Accounting Policy

Health premiums are earned over the term of the related insurance policies. Premiums written are reported net of experience rating refunds. Premiums paid prior to the effective date are recorded on the balance sheet as premiums received in advance and are subsequently credited to income as earned during the coverage period. Premium rates are subject to approval by the Centers for Medicare and Medicaid Services. Expenses are charged to operations as incurred.

In addition, the Company uses the following accounting policies:

(1) Short-term investments include investments with maturities of less than one year and more than three months at the date of acquisition and are reported at amortized cost, which approximates fair value. Non-investment grade short-term investments are stated at the lower of amortized cost or fair value.

(2) Investment grade bonds not backed by other loans are stated at amortized cost, with amortization calculated based on the modified scientific method, using lower of yield to call or yield to maturity. Non-investment grade bonds are stated at the lower of amortized cost or fair value as determined by various third-party pricing sources.

(3) Common stocks of unaffiliated companies are stated at fair value based upon security ratings prescribed by various third-party pricing sources.

(4) Redeemable preferred stocks of unaffiliated companies of the highest and high quality are stated at cost or amortized cost, and all other redeemable preferred stocks are reported at lower of cost, amortized cost, or fair value. Perpetual preferred stocks are carried at fair value, not to exceed any currently effective call prices.

(5) The Company has no mortgage loans.

(6) The Company holds investments in Residential Mortgage-Backed Securities issued by the US Government. Investment grade RMBSs are stated at amortized cost, with amortization calculated based on the modified scientific method, using lower of yield to call or yield to maturity. Non-investment grade RMBS's are stated at the lower of amortized cost or fair value as determined by various third-party pricing sources.

(7) The Company has no investments in subsidiaries, controlled and affiliated companies.

(8) The Company has no investments in joint ventures, partnerships or limited liability companies.

(9) The Company has no derivative instruments.

(10) The Company does not anticipate investment income as a factor in premium deficiency calculations.

(11) Unpaid claims and claims adjustment expenses include management's best estimate of amounts based on historical claim development patterns and certain individual case estimates. The established liability considers health benefit provisions, business practices, economic conditions and other factors that may materially affect the cost, frequency and severity of claims. Liabilities for unpaid claims and claim adjustment expenses are based on assumptions and estimates, and while management believes such estimates are reasonable, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and changes in estimates are incorporated into current period estimates.

(12) The Company has not modified its capitalization policy from the prior period.
