1. Summary of Significant Accounting Policies and Going Concern

The financial statements of Essence Healthcare PPO, Inc. (“EHPP” or “the Company”) are presented on the basis of accounting practices prescribed or permitted by the Missouri Department of Commerce and Insurance (the Department). The Department recognizes only statutory accounting practices prescribed or permitted by the State of Missouri for determining and reporting the financial condition and results of operations of an insurance company, to determine its solvency under the Missouri Department of Insurance Law. The National Association of Insurance Commissioners’ (NAIC) Accounting Practices and Procedures manual, (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Missouri.

A reconciliation of the Company’s net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the state of Missouri is shown below:

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with the accounting practices prescribed or permitted by the Company’s applicable regulatory authorities requires management to make estimates and assumptions. Management’s estimates and assumptions affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenues and expenses during the reporting periods.

Although the Company regularly assesses these estimates, actual results could differ materially from these estimates. Changes in estimates are recorded in the period in which they become known. The Company bases its estimates on historical experience and various other assumptions that it believes to be reasonable under the circumstances. Actual results could differ from management’s estimates if past experience or other assumptions do not turn out to be substantially accurate.

C. Accounting Policy

Premium revenues are recognized in the period in which the eligible individuals are entitled to receive healthcare services. The monthly Part C and Part D premium revenue received from CMS is subject to retrospective adjustment based on the level of care required by members and the hierarchical condition categories (HCC) established by CMS. CMS uses HCC in order to promote fair payments under the Medicare Advantage program so as to direct payments to entities that reward efficiency and encourage excellent care for the chronically ill. The ultimate amount of the retrospective adjustment is influenced by several factors, including the relative acuity of illnesses experienced by members of the Company’s plans as compared to those of other competing plans.

Under the Medicare Part D program, there are multiple separate elements of payment received by the Company during the plan year. These payment elements are as follows:

- CMS Premium – CMS pays a fixed monthly premium per member to the Company for the entire plan year.
- Member Premium – Additionally, certain members pay a fixed monthly premium to the Company for the entire plan year.
- Low-Income Premium Subsidy – For qualifying low-income members, CMS pays some or all of the member’s monthly premium to the Company on the member’s behalf.
- Catastrophic Reinsurance Subsidy – Effective January 2025, under the Inflation Reduction Act, CMS pays the Company a cost reimbursement estimate monthly to fund the CMS obligation to pay approximately 20% of brand drugs and 40% of generic drugs incurred by individual members in excess of the individual annual out-of-pocket maximum. In 2024, CMS was obligated to pay approximately 80% of incurred expenses by individual members in excess of the individual annual out-of-pocket maximum. A settlement is made with CMS based on actual cost experience, after the end of the plan year.
- Low-Income Member Cost Sharing Subsidy – For qualifying low-income members, CMS pays on the member’s behalf some or all of a member’s cost sharing amounts, such as deductibles and coinsurance. The cost sharing subsidy is funded by CMS through monthly payments to the Company. The Company administers and pays the subsidized portion of the claims on behalf of CMS, and a settlement payment is made between CMS and the Company based on actual claims and premium experience, after the end of the plan year.

Notes to the Financial Statements

1. Summary of Significant Accounting Policies and Going Concern (Continued)

- CMS Risk-Share – Premiums from CMS are subject to risk corridor provisions that compare costs targeted in the Company's annual bids by product and region to actual prescription drug costs, limited to actual costs that would have been incurred under the standard coverage as defined by CMS. Variances of more than 5% above or below the original bid submitted by the Company may result in CMS making additional payments to the Company or require the Company to refund to CMS a portion of the premiums it received. The Company estimates and recognizes an adjustment to premium revenues related to the risk corridor payment settlement based upon pharmacy claims experience. The estimate of the settlement associated with these risk corridor provisions requires the Company to consider factors that may not be certain, including member eligibility status differences with CMS and the timing of prescription drug event (PDE) reporting. The Company records risk-share adjustments to premium revenue in the statements of operations and aggregate health policy obligations and reserves in the statements of assets, liabilities, and capital and surplus.
- Coverage Gap Discount (CGD) – Members are provided a discount on brand name Part D prescription drugs in the coverage gap. This discount is funded by CMS and pharmaceutical manufacturers while the Company administers the application of these funds. Amounts received are not reflected as premium revenues, but rather are accounted for as deposits. The Company records a liability when amounts are received from CMS and a receivable when the amounts owed by manufacturers are known. This program was eliminated as of December 31, 2024 and replaced with the Manufacturer Discount Program.
- Manufacturer Discount Program - This program replaced the CGD and is effective January 1, 2025. Manufacturers are required to provide members mandatory discounts on certain covered drugs both below and above the annual out-of-pocket threshold. Under this program discounts are administered through CMS and its contracted third party administrator. Amounts received are not reflected as premium revenues, but rather are accounted for as deposits. The Company records a liability when amounts are received from CMS and a receivable when the amounts owed by manufacturers are known.
- Medicare Prescription Payment Plan (M3P) - This voluntary program was effective January 1, 2025 and allows Medicare Part D beneficiaries to elect to have out-of-pocket prescription drug costs paid by the Company at the point of sale and subsequently repaid in equal monthly installments over the remainder of the plan year. Amounts advanced on behalf of the members are recorded as accounts receivable and are periodically assessed for collectability.

The CMS Premium, the Member Premium, and the Low-Income Premium Subsidy represent payments for the Company's insurance risk coverage under the Medicare Parts C and D programs and therefore are recorded as Premium Revenue in the Statement of Revenue and Expenses. Premium revenue is recognized ratably over the period in which eligible individuals are entitled to receive prescription drug benefits. The Company records premium payments received in advance of the applicable service period in Unearned Revenues in the Statements of Assets, Liabilities, Capital and Surplus.

The Catastrophic Reinsurance Subsidy and Low-Income Member Cost Sharing Subsidy represent a cost reimbursement under the Medicare Part D program. Amounts received or owed for these subsidies are recorded as a liability or receivable in the Statements of Assets, Liabilities, Capital and Surplus.

Pharmacy benefit costs are expensed as incurred and are recognized in Medical and Hospital Expense in the Statements of Revenue and Expenses. Related administrative costs are reported in General Administrative Expenses in the Statements of Revenue and Expenses.

In addition, the Company uses the following accounting policies:

- (1) The Company does not have any short term investments.
- (2) The Company had no mandatory convertible securities and Securities Valuation Office (SVO) identified securities.
- (3) The Company does not have any common stock.
- (4) The Company does not have any preferred stock.
- (5) The Company does not have any mortgage loans.
- (6) The Company does not have any loaned-backed securities.
- (7) The Company does not have any investments in subsidiaries, controlled or affiliated companies.
- (8) The Company does not have any investments in joint ventures, partnerships, or limited liability companies.
- (9) The Company does not have any derivatives.
- (10) The Company utilizes anticipated investment income as a factor in the premium deficiency calculation.
- (11) Unpaid losses and loss adjustment expenses include amounts determined from claims estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed and any adjustments are reflected in the period determined.
- (12) The Company's capitalization policy has not changed.
- (13) The Company's pharmaceutical rebate receivables are estimated based on a historical experience. The amount of receivable is calculated as a percent of the cost of brand drugs. This percentage is continually reviewed and adjusted as necessary and any change is reflected in the period determined.

20. Fair Value Measurements

- A. Fair Value Measurement

The Company follows SSAP No. 100, Fair Value Measurements (SSAP No. 100), for the Company's financial assets and liabilities that are measured at fair value.

The Company's financial assets and liabilities carried at fair value have been classified, for disclosure purposes, based on a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The hierarchy gives the highest priority to fair values determined using unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to fair values determined using unobservable inputs (Level 3). An asset's or liability's classification is determined based on the lowest level input that is significant to its measurement.

For example, a Level 3 fair value measurement may include inputs that are both observable (Levels 1 and 2) and unobservable (Level 3). The levels of the fair value hierarchy are as follows:

- Level 1: Inputs are unadjusted, quoted prices for identical assets or liabilities in active markets at the measurement date.
- Level 2: Inputs are other than quoted prices included in level 1 that are observable for the asset or liability through corroboration with market data at the measurement date.
- Level 3: Inputs are unobservable and reflect management's best estimate of what market participants would use in pricing the asset or liability at the measurement date.

Fair value of actively traded fixed-income and equity securities is based on quoted market prices. Fair value of inactively traded fixed-income securities is based on quoted market prices of identical or similar securities based on observable inputs like interest rates using a market valuation approach is generally classified as Level 2. Investments measured based on the practical expedient being net asset value (NAV), based on the NAV of the fund as provided for in the audited financial statements and other fund reporting, are generally classified as Level 3.

- (1) Fair value measurements at reporting date - None
- (2) Fair value measurements in Level 3 of the fair value hierarchy - None

25. Change in Incurred Claims and Claim Adjustment Expenses

Reserves for claims and claim adjustment expenses as of December 31, 2025 were \$10,881,464 . As of March 31, 2026 , \$6,233,503has been paid for incurred claims and claims adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are now \$1,775,014as a result of re-estimation of unpaid claims and claim adjustment expenses. Therefore, there has been a \$2,872,947 favorable prior-year development since December 31, 2025 to March 31, 2026 . The change is generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased, as additional information becomes known regarding individual claims. There were no significant changes in methodologies and assumptions used in calculating the liability for the unpaid losses and loss adjustment expenses.
