**ANNUAL STATEMENT FOR THE YEAR 2022 OF THE Harmony Health Plan, Inc.
NOTES TO FINANCIAL STATEMENT**

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The financial statements of Harmony Health Plan, Inc. (the “Company”), domiciled in the State of Illinois, are presented on the basis of accounting practices prescribed or permitted by the Insurance Department of Illinois (the “Department”).

The Department recognizes only statutory accounting practices prescribed or permitted by the State of Illinois for determining and reporting the financial condition, results of operations, and cash flow of an insurance company for determining its solvency under Illinois insurance law. The National Association of Insurance Commissioners’ (“NAIC”) Accounting Practices and Procedures manual, (“NAIC SAP”) has been adopted as a component of prescribed or permitted practices by the State of Illinois.

A reconciliation of the Company’s net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of Illinois is shown below:

B. Uses of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in accordance with statutory accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The primary use of estimates are related to the Company’s reserve for claims unpaid. Actual results could differ significantly from those estimates.

C. Accounting Policy

1. Cash and short-term investments are carried at cost, which approximates fair value. Short-term investments include securities purchased within twelve months or less of maturity date.
2. Investment grade bonds (NAIC designations 1 or 2) not backed by other loans are valued at amortized cost using the scientific (constant yield) method. Bonds containing call provisions, except “make whole” call provisions, are amortized to the call or maturity value/date which produces the lowest asset value (yield to worst). Bonds which are below investment grade (NAIC designation 3 to 6) are carried at lower of amortized cost or fair value.
3. The Company holds no common stocks.
4. The Company holds no preferred stocks.
5. The Company holds no mortgage loans.
6. The Company has loan-backed securities carried at amortized cost. Adjustments are applied prospectively.
7. The Company has no investment in subsidiaries, controlled or affiliated companies.
8. The Company has minor ownership interests in joint ventures that do not exceed 10% of admitted assets. The Company carries these interests based on the underlying audited GAAP equity of the investee.
9. The Company holds no derivatives.
10. The Company reviews expectations regarding the profitability of contracts in force to determine whether a premium deficiency reserve is required. The Company considers anticipated investment income when calculating its premium deficiency reserves. The adequacy of reserve requirements is continually reviewed by management, with any reductions in the reserve being recorded as a beneficial effect in the statement of revenue and expense. The Company has no premium deficiency reserve at December 31, 2022.

ANNUAL STATEMENT FOR THE YEAR 2022 OF THE Harmony Health Plan, Inc.
NOTES TO FINANCIAL STATEMENT

11. Unpaid losses and loss adjustment expenses include amounts determined from claims estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount to be adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability is continually reviewed and any adjustments are reflected in the period determined.

12. The Company has not modified its capitalization policy from the prior period.

13. Pharmaceutical rebates are based on actual pharmaceutical claims experience.

2. 12 Months or Longer	\$	301,525

b. The aggregate related fair value of securities with unrealized losses:

1. Less than 12 Months	\$	50,895,313
2. 12 Months or Longer	\$	4,787,950

5. For any security in an unrealized loss position, the Company assesses whether it intends to sell the security or if it is more likely than not that the Company will be required to sell the security before recovery of the amortized cost basis for reasons such as liquidity, contractual or regulatory purposes. If the security meets this criterion, the decline in fair value is OTTI and is recorded in earnings. The Company does not intend to sell these securities prior to maturity; therefore, there is no indication of other than temporary impairment of these securities.

For loan-backed securities in an unrealized loss position, management further evaluates whether the collection of all cash flow is probable. Management utilizes the prospective adjustment method to evaluate the present value of future cash flow. For those loan-back and structured securities (NAIC designated 1 or 2) where management has determined that collection of all contractual cash flow is not probable, the securities are considered other than temporarily impaired to the extent amortized cost is greater than the present value of future cash flow.

The Company does not intend to sell these securities prior to maturity; therefore, there is no indication of other than temporary impairment.

E. The Company's policy for dollar repurchase agreements require a minimum of 100% of the fair value of securities purchases agreements to be maintained as collateral. There were no dollar repurchase arrangements outstanding for the year ended December 31, 2022.

- B. Assets Measured on a Fair Value on a Nonrecurring Basis:

The Company's financial statements include certain financial instruments carried at amounts which approximate fair value, such as, cash, cash equivalents, short-term investments and receivables. The carrying amount approximates fair value because of the short-term nature of these items. .

The NAIC SAP defines fair value, establishes a framework for measuring fair value, and outlines the disclosure requirements related to fair value measurements. The fair value hierarchy is as follows:

Level input	Input definition
Level I	Inputs are unadjusted, quoted prices for identical assets or liabilities in active markets at the measurement date.
Level II	Inputs other than quoted prices included in Level I that are observable for the asset or liability through corroboration with market data at the measurement date.
Level III	Unobservable inputs that reflect management's best estimate of what market participants would use in pricing the asset or liability at the measurement date.

- C. Fair Values for All Financial Instruments by Levels 1, 2 and 3:

Type of Financial Instrument	Aggregate Fair Value	Admitted Assets	Level 1	Level 2	Level 3	Net Asset Value (NAV)	Not Practicable (Carrying Value)
