NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies and Going Concern

Definitive Agreement to Sell

In January 2024, the Cigna Group entered into a definitive agreement to sell its Medicare Advantage, Medicare Stand-Alone Prescription Drug Plans, Medicare and Non-Medicare Supplement, and CareAllies businesses to Health Care Service Corporation (“HCSC”) for \$3.3 billion in cash. All of the Company’s business is included in the sale. The sale is expected to close during the first quarter of 2025, subject to applicable regulatory approvals and other customary closing conditions. Until the deal is closed, the Company and HCSC will continue to operate as separate and independent companies.

A. Accounting Practices

The financial statements of HealthSpring Life & Health Insurance Company, Inc. (the Company) are presented on the basis of accounting practices prescribed or permitted by the Texas Department of Insurance (the Department).

The Department recognizes only statutory accounting practices prescribed or permitted by the state of Texas for determining and reporting the financial condition and results of operations of a Health Maintenance Organization (HMO) for determining solvency under Texas Insurance Law. The National Association of Insurance Commissioners’ (the NAIC) *Accounting Practices and Procedures Manual* (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the state of Texas. While the Department has adopted certain prescribed accounting practices that differ from those found in NAIC SAP, the Company’s financials were not affected by those differences in 2024 or 2023.

A reconciliation of the Company’s net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the Department is shown below:

B. Use of Estimates in the Preparation of the Financial Statements

No change from the 2023 Annual Statement.

C. Accounting Policies

No change from the 2023 Annual Statement.

D. Going Concern

The Company has assessed and concluded that there were no conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern within one year after the date the financial statements were issued.

2. Accounting Changes and Corrections of Errors

Changes in Accounting Principles - none.

Correction of Errors - The Company had a SSAP No. 3 (Accounting Changes and Corrections) prior year correction of \$21,532,383 as of December 31, 2023 related to recording a management fee twice. The management fee correction (net of federal income taxes) was taken directly against unassigned surplus. The below financial statement lines were impacted.

Amounts due to parent, subsidiaries and affiliates decreased \$21,532,283.
Current federal and foreign income tax recoverable increased \$4,521,800 .
Unassigned funds (surplus) increased \$17,010,583.

3. Business Combinations and Goodwill - Not applicable.

4. Discontinued Operations - Not applicable.

5. Investments

A. Mortgage Loans, including Mezzanine Real Estate Loans

No change from the 2023 Annual Statement.

B. Debt Restructuring – Not applicable.

C. Reverse Mortgages – Not applicable.

D. Loan-Backed Securities

1. Prepayment assumptions for loan-backed securities and other structured securities were obtained from external financial data sources. These assumptions are consistent with the current interest rate and economic environment.
2. The Company had no loan-backed and structured securities with recognized other-than-temporary impairments where the Company had the intent to sell or does not have the intent and ability to retain the investment for a period of time sufficient to recover the amortized cost basis as of March 31, 2024.
3. The Company had no loan-backed and structured securities with recognized other-than-temporary impairments where the present value of cash flow expected to be collected is less than the amortized cost basis as of March 31, 2024.

4. As of March 31, 2024, loan-backed and structured securities with a decline in fair value from amortized cost were as follows, including the length of time of such decline:
- a. The aggregate amount of unrealized losses:
 1. Less than 12 months: \$ —
 2. 12 months or longer: 1,106,651
 - b. The aggregate related fair value of securities with unrealized losses:
 1. Less than 12 months: \$ —
 2. 12 months or longer: 18,053,453
5. Management reviews loan-backed and other structured securities with a decline in fair value from cost for impairment based on criteria that include:
- Length of time and severity of decline;
 - Financial and specific near term prospects of the issuer;
 - Changes in the regulatory, economic or general market environment of the issuer's industry or geographic region; and
 - The Company's intent to sell or the inability or lack of intent to retain the investment in the security for a period of time sufficient to recover the amortized cost.

Based on this review, management believes the unrealized depreciation on loan-backed securities to be temporary and, therefore, has not impaired these amounts.

19. **Direct Premium Written/Produced by Managing General Agents/Third Party Administrators** - Not applicable.

20. **Fair Value Measurements**

A. Fair Value Measurements

Fair value is defined as the price at which an asset could be exchanged in an orderly transaction between market participants at the balance sheet date. The Company's financial assets have been classified based upon a hierarchy defined by SAP. The hierarchy gives the highest ranking to fair values determined using unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest ranking to fair values determined using methodologies and models with unobservable inputs (Level 3). An asset's or a liability's classification is based on the lowest level input that is significant to its measurement. For example, a financial asset or liability carried at fair value would be classified in Level 3 if unobservable inputs were significant to the instrument's fair value, even though the measurement may be derived using inputs that are both observable (Levels 1 and 2) and unobservable (Level 3).

- Level 1 Inputs for instruments classified in Level 1 include unadjusted quoted prices for identical assets in active markets accessible at the measurement date. Active markets provide pricing data for trades occurring at least weekly and include exchanges and dealer markets.
- Level 2 Inputs for instruments classified in Level 2 include quoted prices for similar assets in active markets, quoted prices from those willing to trade in markets that are not active, or other inputs that are market observable or can be corroborated by market data for the term of the instrument. Such other inputs include market interest rates and volatilities, spreads and yield curves. An instrument is classified in Level 2 if the Company determines that unobservable inputs are insignificant. Level 2 assets primarily include corporate bonds valued using recent trades of similar securities or pricing models that discount future cash flows at estimated market interest rates.
- Level 3 Certain inputs for instruments classified in Level 3 are unobservable (supported by little or no market activity) and significant to their resulting fair value measurement. Unobservable inputs reflect the Company's best estimate of what hypothetical market participants would use to determine a transaction price for the asset or liability at the reporting date.

SSAP 100 allows for the use of net asset value (NAV) as a practical expedient to fair value for investments in investment companies where there is no readily determinable fair value. There were no such investments owned by the Company for either period presented.

1. Fair Value Measurements at Reporting Date

The following tables provide information about the Company's financial instruments carried at fair value as of March 31, 2024 and December 31, 2023.

Financial Assets at Fair Value	Level 1	Level 2	Level 3	Net Asset Value (NAV)	Total
March 31, 2024					
Bonds	\$ —	\$ 62,111,713	\$ —	\$ —	\$ 62,111,713
Common stocks	21,180	—	—	—	21,180

Bonds	—	85,076,010	—	—	85,076,010
Common stocks	87,097	—	—	—	87,097

2. Fair Value Measurements in Level 3 of the Fair Value Hierarchy

The following tables summarize the changes in financial instruments classified in Level 3 for the three months ended March 31, 2024 and March 31, 2023. Gains and losses

reported in these tables may include net changes in fair value that are attributable to both observable and unobservable inputs.

For the three months ended March 31, 2024

Level 3 Financial Assets	Beginning balance January 1, 2024	Transfers into Level 3	Transfers out of Level 3	Total gains (losses) included in Net Income	Total losses included in Surplus	Purchases	Issuances	Sales	Settlements	Ending Balance March 31, 2024

Bonds	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —

3. Level 3 Transfers

Reclassifications impacting Level 3 financial instruments are reported as transfers in or out of the Level 3 category. Gains and losses in net income and surplus only reflect activity for the period the instrument was classified in Level 3. Transfers into or out of the Level 3 category occur when there is a change in the measurement basis in the period for lower-rated bonds valued at the lower of cost or fair value. Transfers into or out of Level 3 may also occur when observable inputs, such as the Company's best estimate of what a market participant would use to determine a current transaction price, become more or less significant to the fair value measurement. For the three months ended March 31, 2024, there were no transfers into or out of Level 3.

4. Valuation Techniques and Inputs

The Company estimates fair values using prices from third parties or internal pricing methods. Fair value estimates received from third-party pricing services are based on reported trade activity and quoted market prices when available, and other market information that a market participant may use to estimate fair value. Such other inputs include market interest rates and volatilities, spreads, and yield curves. The internal pricing methods are performed by the Company's investment professionals and generally involve using discounted cash flow analyses, incorporating current market inputs for similar financial instruments with comparable terms and credit quality, as well as other qualitative factors. In instances where there is little or no market activity for the same or similar instruments, the fair value is estimated using methods, models, and assumptions that the Company believes a hypothetical market participant would use to determine a current transaction price.

B. Other Fair Value Disclosures

The Company provides additional fair value information in Note 5.

C. Aggregate Fair Value of All Financial Instruments

The following table provides the fair value, carrying value, and classification in the fair value hierarchy of the Company's financial instruments as of March 31, 2024 and December 31, 2023.

The following valuation methodologies and significant assumptions are used by the Company to determine fair value for each instrument.

Bonds

The Company estimates fair values using prices from third parties or internal pricing methods. Fair value estimates received from third-party pricing services are based on reported trade activity and quoted market prices when available, and other market information that a market participant may use to estimate fair value. Such other inputs include market interest rates and volatilities, spreads, and yield curves. The internal pricing methods are performed by the Company's investment professionals and generally involve using discounted cash flow analyses, incorporating current market inputs for similar financial instruments with comparable terms and credit quality, as well as other qualitative factors. In instances where there is little or no market activity for the same or similar instruments, the fair value is estimated using methods, models, and assumptions that the Company believes a hypothetical market participant would use to determine a current transaction price.

Commercial Mortgage Loans

The Company estimates the fair value of commercial mortgage loans generally by discounting cash flows at estimated market interest rates that reflect the Company's assessment of the credit quality of the loans. Market interest rates are derived by calculating the appropriate spread over comparable U.S. Treasury rates, based on the property type, quality rating and average life of the loan. The quality ratings reflect the relative risk of the loan, considering debt service coverage, the loan-to-value ratio and other factors. Fair values of impaired mortgage loans are based on the estimated fair value of the underlying collateral generally determined using an internal discounted cash flow model.

Cash, Cash Equivalents, and Short-Term Investments

Short-term investments, cash equivalents, and cash are carried at cost which approximates fair value. Short-term investments and cash equivalents are classified in Level 2, and cash is classified in Level 1.

D. Disclosures about Financial Instruments Not Practicable to Estimate Fair Value – None.

E. Investments Measured Using the NAV Practical Expedient - None.

21. **Other Items** - No change from the 2023 Annual Statement.

22. **Events Subsequent**

The Company is not aware of any Type I or Type II event that occurred subsequent to the balance sheet date for these financial statements which would have had a material effect on the financial condition of the Company. In preparing these financial statements the Company has evaluated events that occurred between the balance sheet date and May 14, 2024.

23. **Reinsurance** - No change from the 2023 Annual Statement.

24. **Retrospectively Rated Contracts and Contracts Subject to Redetermination**

A. **Method Used to Estimate Accrued Retrospective Premium Adjustments** – Not applicable.

D. **Medical loss ratio rebates required pursuant to the Public Health Service Act**

On January 1, 2014, the Company became subject to the minimum loss ratio rebate provisions of the Affordable Care Act (ACA). ACA require payment of premium rebates to customers covered under the Company's comprehensive medical insurance if certain annual minimum medical loss ratios are not met. At the close of each quarter, the Company records its rebate accrual based on year-to-date estimated medical loss ratios calculated as prescribed by the interim final rule issued by the Department of Health & Human Services using year-to-date premium and claim information by state and market segment. Since this accrual reflects the amount of rebate that would be payable based on year-to-date estimated medical loss ratios, the amount of rebate will fluctuate as actual claim experience develops each calendar quarter.

The Company accrued no rebate as of March 31, 2024 and December 31, 2023.

E. **Risk Sharing Provisions of the Affordable Care Act** – The Company does not write business subject to the Risk Sharing Provisions of the Affordable Care Act.

25. **Change in Incurred Claims and Claim Adjustment Expenses**

The following table shows the liability for claims unpaid as of December 31, 2023 and amounts paid during the current year on these liabilities. Reserves remaining for prior years result from a re-estimation of unpaid claims and claim adjustment expenses and reflect a favorable/ (unfavorable) development since December 31, 2023. This release is generally the result of

ongoing analysis of recent loss development trends. Original estimates are increased or decreased, as additional information becomes known regarding individual claims.
