## 1. Summary of Significant Accounting Policies and Going Concern

### A) Accounting Practices

The financial statements of QCA Health Plan, Inc. (the Company) are presented on the basis of accounting practices prescribed or permitted by the Arkansas Department of Insurance (DOI).

The Arkansas DOI recognizes only statutory accounting practices prescribed or permitted by the State of Arkansas for determining and reporting the financial condition and results of operations of an insurance company, for determining solvency under the Arkansas Insurance Law. The National Association of Insurance Commissioners' (NAIC) *Accounting Practices and Procedures Manual* (NAIC SAP) has been adopted with modifications as a component of prescribed or permitted practices of the state of Arkansas.

### B) Use of Estimates in the Preparation of the Financial Statement

The preparation of financial statements in conformity with the Annual Statement Instructions and the Accounting Practices and Procedures Manual requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

### C) Accounting Policy

- Cash and short-term investments are carried at cost, which approximates fair value. Short-term investments include securities purchased within twelve month or less of maturity date.
- Investment grade bonds (NAIC designation 1 or 2) not backed by other loans are valued at amortized cost using the scientific (constant yield) method. Bonds containing call provisions, except "make whole" call provisions, are amortized to the call or maturity value/date which produces the lowest asset value (yield to worst). Bonds which are below investment grade (NAIC designations 3 to 6) are carried at the lower of amortized cost or fair value.
- The Company holds no common stocks.
- The Company is invested in the preferred stock of an affiliated entity, QualChoice Life and Health Insurance Company, Inc.
- The Company holds no mortgage loans.
- Loan-back securities are carried at amortized cost. Adjustments are applied prospectively.

7. The Company is invested in the preferred stock of an affiliated entity, QualChoice Life and Health Insurance Company, Inc.
8. The Company has no investments in joint ventures, partnerships and limited liability companies.
9. The Company holds no derivatives.
10. The Company reviews expectations regarding the profitability of contracts in force to determine whether a premium deficiency reserve is required. The Company considers anticipated investment income when calculating its premium deficiency reserves. The adequacy of reserve requirements is continually reviewed by management, with any reductions in the reserve being recorded as a beneficial effect in the Statement of Revenue and Expenses. The Company has a \$0 premium deficiency reserve recorded as of December 31, 2021.
11. Unpaid losses and loss adjustment expenses include amounts determined from claims estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount to be adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability is continually reviewed and any adjustments are reflected in the period determined.
12. The company does not have capitalized assets.
13. Pharmaceutical rebates are based on actual pharmaceutical claims experience.

D) Going Concern

The Company's management has not identified any conditions or events that raise substantial doubt in its ability to continue as a going concern.

**2. Accounting Changes and Corrections of Errors**

The Company has no material changes in accounting and/or correction of errors.

  1. Prepayment assumptions for loan-backed securities were obtained from Moody's.
  2. There were no securities within the scope of this statement with a recognized other-than-temporary-impairment.

3. Not applicable

4. All impaired securities (fair value is less than cost or amortized cost) for which an other-than-temporary impairment has not been recognized in earnings as a realized loss (including securities with a recognized other-than-temporary impairment for non-interest related declines when a non-recognized interest related impairment remains):

a.	The aggregate amount of unrealized			
			1. Less than 12 Months	15,392.25
			2. 12 Months or Longer	12,515.24
b.	The aggregate related fair value of			
			1. Less than 12 Months	1,423,577.95
			2. 12 Months or Longer	320,426.32

5. For any security in an unrealized loss position, the Company assesses whether it intends to sell the security or if it is more likely than not that the Company will be required to sell the security before recovery of the amortized cost basis for reasons such as liquidity, contractual or regulatory purposes. If the security meets this criterion, the decline in fair value is other-than-temporary and is recorded in earnings.

For loan-backed securities in an unrealized loss position, management further evaluates whether the collection of all cashflows is probable. Management utilizes the prospective adjustment method to evaluate the present value of future cash flows. For those loan-back and structured securities (NAIC designated 1 or 2) where management has determined that collection of all contractual cashflows is not probable, the securities are considered other than temporarily impaired to the extent amortized cost is greater than the present value of future cash flows.
