UNITEDHEALTHCARE OF THE MIDLANDS, INC.

**NOTES TO STATUTORY BASIS FINANCIAL STATEMENTS
AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2022 AND 2021**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND GOING CONCERN

Organization and Operation

UnitedHealthcare of the Midlands, Inc. (the “Company”), licensed as a health maintenance organization (“HMO”), offers its enrollees a variety of managed care programs and products through contractual arrangements with health care providers. The Company is a wholly owned subsidiary of UnitedHealthcare, Inc. (“UHC”). UHC is a wholly owned subsidiary of United HealthCare Services, Inc. (“UHS”), a management corporation that provides services to the Company under the terms of a management agreement (the “Agreement”). UHS is a wholly owned subsidiary of UnitedHealth Group Incorporated (“UnitedHealth Group”). UnitedHealth Group is a publicly held company trading on the New York Stock Exchange.

The Company was incorporated on April 16, 1984, as an HMO and operations commenced in August 1984. The Company is certified as an HMO by the Nebraska Department of Insurance (“the Department”). The Company has entered into contracts with physicians, hospitals, and other health care provider organizations to deliver health care services for all enrollees. The Company is licensed in eight states.

The Company offers comprehensive commercial products to employer groups. Each contract outlines the coverage provided and renewal provisions.

The Company serves as a plan sponsor offering Medicare Parts A & B, along with Medicare Part D prescription drug insurance coverage, as well as Medicare specialized programs including a Dual Special Needs Plan, and an Institutional Special Needs Plan (collectively “Medicare Plans”) under contracts with the Centers for Medicare and Medicaid Services (“CMS”).

Effective January 1, 2022, affiliates, UnitedHealthcare of Alabama, Inc. and UnitedHealthcare of Arkansas, Inc. novated CMS contracts to the Company. The novation agreements resulted in full control of the contracts being transferred to the Company at \$0 net book value for dates of service on or after January 1, 2022. Approval for these novations was received from CMS.

The Company has a contract with the State of Nebraska, Department of Health and Human Services (“DHHS”), Division of Medicaid and Long Term Care, to provide health care services to Medicaid eligible beneficiaries, which include eligible beneficiaries under the Children’s Health Insurance Program (“CHIP”), in Nebraska. The current contract is effective through December 31, 2023, and includes an option for a one-year extension thereafter.

A. Accounting Practices

The statutory basis financial statements (herein referred to as “financial statements”) are presented on the basis of accounting practices prescribed or permitted by the Department.

The Department recognizes only statutory accounting practices, prescribed or permitted by the State of Nebraska (the “State”) for determining and reporting the financial condition and results of operations of an HMO, for determining its solvency under Nebraska Insurance Law. The State prescribes the use of the National Association of Insurance Commissioners’ (“NAIC”) Accounting Practices and Procedures manual (“NAIC SAP”) in effect for the accounting periods covered in the financial statements.

ANNUAL STATEMENT FOR THE YEAR 2022 OF THE UnitedHealthcare of the Midlands, Inc.

No significant differences exist between the practices prescribed or permitted by the State and the NAIC SAP which materially affect the statutory basis net income and capital and surplus, as illustrated in the table below:

	SSAP #	F/S Page #	F/S Line #	December 31, 2022	December 31, 2021

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of these financial statements in conformity with the NAIC Annual Statement Instructions and the NAIC SAP include certain amounts that are based on the Company's estimates and judgments. These estimates require the Company to apply complex assumptions and judgments, often because the Company must make estimates about the effects of matters that are inherently uncertain and will change in subsequent periods. The most significant estimates relate to hospital and medical benefits, claims unpaid, aggregate health policy reserves (including medical loss ratio ("MLR") rebates), aggregate health claim reserves, risk corridor, and risk adjustment estimates. The Company adjusts these estimates each period as more current information becomes available. The impact of any changes in estimates is included in the determination of net income in the period in which the estimate is adjusted.

C. Accounting Policy

Basis of Presentation — The Company prepares its financial statements on the basis of accounting practices prescribed or permitted by the Department. These statutory practices differ from accounting principles generally accepted in the United States of America ("GAAP").

Accounting policy disclosures that are required by the NAIC Annual Statement instructions are as follows:

- (1–2) Bonds are stated at book/adjusted carrying value if they meet NAIC designation of one or two and stated at the lower of book/adjusted carrying value or fair value if they meet an NAIC designation of three or higher. The Company does not have any mandatory convertible securities or Investment Analysis Office of the NAIC ("IAO") identified funds (i.e.: exchange traded funds or bond mutual funds) in its bond portfolio. Amortization of bond premium or accretion of discount is calculated using the constant yield interest method. Bonds are valued and reported using market prices published by the IAO in accordance with the NAIC Valuation of Securities manual prepared by the IAO or an external pricing service;
- (3–4) The Company holds no common or preferred stock;
- (5) The Company holds no mortgage loans on real estate;

- (6) U.S. government and agency securities and corporate debt securities include loan-backed securities (mortgage-backed securities and asset-backed securities), which are valued using the retrospective adjustment methodology. Prepayment assumptions for the determination of the book/adjusted carrying value, commonly referred to as amortized cost, of loan-backed securities are based on a three-month constant prepayment rate history obtained from external data source vendors. The Company's investment policy limits investments in nonagency residential mortgage-backed securities, including home equity and sub-prime mortgages, to 10% of total cash and invested assets. Total combined investments in mortgage-backed securities and asset-backed securities cannot exceed more than 30% of total cash and invested assets;
- (7) The Company holds no investments in subsidiaries, controlled, or affiliated entities;
- (8) The Company has no investment interests with respect to joint ventures, partnerships, or limited liability companies;
- (9) The Company holds no derivatives;
- (10) Premium Deficiency Reserves ("PDR") (inclusive of conversion reserves) and the related expenses are recognized when it is probable that expected future health care expenses, claims adjustment expenses ("CAE"), direct administration costs, and an allocation of indirect administration costs under a group of existing contracts will exceed anticipated future premiums and reinsurance recoveries considered over the remaining lives of the contracts, and are recorded as aggregate health policy reserves in the financial statements. Indirect administration costs arise from activities that are not specifically identifiable to a specific group of existing contracts, and therefore, those costs are fully allocated among the various contract groupings. The allocation of indirect administration costs to each contract grouping is made proportionately to the expected margins remaining in the premiums after future health care expenses, CAE and direct administration costs are considered. The data and assumptions underlying such estimates and the resulting reserves are periodically updated, and any adjustments are reflected as an increase in reserves for life, accident, and health contracts in the financial statements in the period in which the change in estimate is identified. The Company does anticipate investment income as a factor in the PDR calculation (see Note 30);
- (11) CAE are those costs expected to be incurred in connection with the adjustment and recording of accident and health claims. Pursuant to the terms of the Agreement (see Note 10), the Company pays a management fee to its affiliate, UHS, in exchange for administrative and management services. A detailed review of the administrative expenses of the Company and UHS is performed to determine the allocation between CAE and general administrative expenses ("GAE") to be reported in the financial statements. It is the responsibility of UHS to pay CAE in the event the Company ceases operations. The Company has recorded an estimate of unpaid CAE associated with incurred but unpaid claims, which is included in unpaid CAE in the financial statements. Management believes the amount of the liability for unpaid CAE as of December 31, 2022 is adequate to cover the Company's cost for the adjustment and recording of unpaid claims; however, actual expenses may differ from those established estimates. Adjustments to the estimates for unpaid CAE are reflected in operating results in the period in which the change in estimate is identified;
- (12) The Company does not carry any fixed assets in the financial statements;
- (13) Health care and other amounts receivable consist of pharmacy rebates receivable estimated based on the most currently available data from the Company's claims processing systems and from data provided by the Company's affiliated pharmaceutical benefit manager, OptumRx, Inc. ("OptumRx"). Health care and other amounts receivable also include receivables for capitation arrangements, amounts due to the Company for provider advances and claim overpayments to providers, hospitals and other health care organizations. Health care and other amounts receivable are considered nonadmitted assets under the NAIC SAP if they do not meet admissibility requirements. Accordingly, the Company has excluded receivables that do not meet the admissibility criteria from the financial statements (see Note 28).

The Company has also deemed the following to be significant accounting policies:

ASSETS

Cash and Invested Assets

- Bonds include securities with a maturity of greater than one year at the time of purchase;

- Cash equivalents include securities that have original maturity dates of three months or less from the date of acquisition. Cash equivalents also consist of the Company's share of a qualified cash pool sponsored and administered by UHS. The investment pool is recorded at cost or book/adjusted carrying value depending on the composition of the underlying securities. Interest income from the pool accrues daily to participating members based upon ownership percentage. Cash equivalents, excluding money-market funds, are reported at cost or book/adjusted carrying value depending on the nature of the underlying security, which approximates fair value. Money-market funds are reported at fair value or net asset value ("NAV") as a practical expedient;
- Realized capital gains and losses on sales of investments are calculated based upon specific identification of the investments sold. These gains and losses are reported as net realized capital (losses) gains less capital gains (benefit) tax ("net realized capital gains (losses) less taxes) in the financial statements.
- The Company continually monitors the difference between amortized cost and estimated fair value of its investments. If any of the Company's investments experience a decline in value that the Company has determined is other-than-temporary, or if the Company has determined it will sell a security that is in an impaired status, the Company will record a realized loss in net realized capital gains (losses) less taxes, in the financial statements. The new cost basis is not changed for subsequent recoveries in fair value. The prospective adjustment method is utilized for loan-backed securities for periods subsequent to the loss recognition (see Note 5).

Other Assets

- **Premiums and Considerations** — The Company reports uncollected premium balances from its insured members, groups, CMS, and state Medicaid agencies as premiums and considerations in the financial statements. Uncollected premium balances that are over 90 days past due, with the exception of amounts due from government insured plans, are considered nonadmitted assets. In addition to those balances, current balances are also considered nonadmitted if the corresponding balance greater than 90 days past due is deemed more than inconsequential. Premiums and considerations also include amounts for commercial risk adjustment receivables as defined in Section 1343 of the Affordable Care Act ("ACA"), CMS risk corridor receivables, CMS risk adjustment receivables for the Medicare Plans, pay for performance program receivables, and high cost drug pool receivables.

Premium adjustments for the CMS risk corridor programs and high cost drug pool are accounted for as premium adjustments subject to retrospectively rated features (see Note 24). Premium adjustments for the commercial ACA Section 1343 risk adjustment, CMS risk adjustment, and pay for performance programs are accounted for as premium adjustments subject to redetermination (see Note 24).

LIABILITIES

- **Claims Unpaid and Aggregate Health Claim Reserves** — Claims unpaid and aggregate health claim reserves include claims processed but not yet paid, estimates for claims received but not yet processed, estimates for the costs of health care services enrollees have received but for which claims have not yet been submitted, and payments and liabilities for physician, hospital, and other medical costs disputes.

The estimates for incurred but not yet reported claims are developed using an actuarial process that is consistently applied, centrally controlled, and automated. The actuarial models consider factors such as historical submission and payment data, cost trends, customer and product mix, seasonality, utilization of health care services, contracted service rates, and other relevant factors. The Company estimates such liabilities for physician, hospital, and other medical cost disputes based upon an analysis of potential outcomes, assuming a combination of litigation and settlement strategies. These estimates may change as actuarial methods change or as underlying facts upon which estimates are based change. The Company did not change actuarial methods during 2022 and 2021. Management believes the amount of claims unpaid and aggregate health claim reserves is a best estimate of the Company's liability for unpaid claims and aggregate health claim reserves as of December 31, 2022; however, actual payments may differ from those established estimates.

The Company contracts with hospitals, physicians, and other providers of health care under capitated or discounted fee for service arrangements, including a hospital per diem to provide medical care services to enrollees. Some of these contracts are with related parties (see Note 10). Capitated providers are at risk for the cost of medical care services provided to the Company's enrollees; however, the Company is ultimately responsible for the provision of services to its enrollees should the capitated provider be unable to provide the contracted services.

- **Accrued Medical Incentive Pool and Bonus Amounts** — The Company has agreements with certain provider groups that provide for the establishment of a pool which includes monthly premiums payable and the disbursement of funds for medical services. Any surplus in the pool is shared by the Company and the provider group based upon a predetermined risk-sharing percentage and the liability is included in accrued medical incentive pool and bonus amounts in the financial statements. The Company also has incentive and bonus arrangements with providers that are based on quality, utilization, and/or various health outcome measures. The estimated amount due to providers that meet the established metrics is included in accrued medical incentive pool and bonus amounts in the financial statements.

Aggregate Health Policy Reserves — The Company establishes a liability, net of ceded reinsurance, for estimated accrued retrospective and redetermination premiums due from the Company based on the actuarial method and assumptions for each respective contract. Aggregate health policy reserves includes commercial risk adjustment payables as defined in Section 1343 of the ACA, CMS risk corridor payables, CMS risk adjustment payables for the Medicare Plans and estimated MLR rebates payable on the comprehensive commercial, Medicaid and Medicare Plans.

Additionally, the Company has recorded an estimated provider quality performance payable based on various quality measures. Heritage Health is a health care delivery system that combines physical health, behavioral health, and pharmacy programs into a single comprehensive and coordinated system for Nebraska's Medicaid and CHIP members.

Further, pursuant to the Medicaid Managed Care Rule, based on the State's election and state contractual minimum loss ratio requirements, the Company is required to maintain specific minimum loss ratio on its Heritage Health Plan and Heritage Health populations.

Premium adjustments for the CMS risk corridor and estimated MLR rebates programs are accounted for as premium adjustments subject to retrospectively rated features (see Note 24). Premium adjustments for the commercial ACA Section 1343 risk adjustment, CMS risk adjustment programs and a portion of provider quality performance payables are accounted for as premium adjustments subject to redetermination (see Note 24).

- **Liability for Amounts Held Under Uninsured Plans** — Liability for amounts held under uninsured plans represents amounts due from the Company to CMS, state Medicaid agencies, and groups for the administrative activities it performs for which it has no insurance risk (see Note 18). Liability for amounts held under uninsured plans includes costs incurred that are less than the cost reimbursement under the Medicare Plans for the catastrophic reinsurance and the low-income member cost-sharing, a liability for the amounts subject to recoupment under the ACA coverage gap discount program and cost reimbursement for the cost-sharing reduction components of the ACA.

CAPITAL AND SURPLUS AND MINIMUM STATUTORY REQUIREMENTS

- **Restricted Cash Reserves** —

The Company is in compliance with various states regulatory deposit requirements as of December 31, 2022 and 2021, respectively, for qualification purposes as a domestic and foreign insurer. These restricted cash reserves are stated at book/adjusted carrying value, which approximates fair value. These restricted deposits are included in bonds in the financial statements. Interest earned on these deposits accrues to the Company (see Note 5).

- **Minimum Capital and Surplus** —

Under the laws of the State of Nebraska, the Company's domiciliary state, the Department requires the Company to maintain a minimum capital and surplus equal to \$58,655,717.

Risk-based capital ("RBC") is a regulatory tool for measuring the minimum amount of capital appropriate for a managed care organization to support its overall business operations in consideration of its size and risk profile. The Department requires the Company to maintain minimum capital and surplus equal to the greater of the state statute as outlined above, or the company action level as calculated by the RBC formula, or the level needed to avoid action pursuant to the trend test in the RBC formula.

The Company is also subject to minimum capital and surplus requirements in other states where it is licensed to do business.

The Company is in compliance with the minimum required capital and surplus amounts where it is licensed to do business, as of December 31, 2022 and 2021.

STATEMENTS OF OPERATIONS

- **Net Premium Income and Change in Reserve for Rate Credits** — Revenues consist of net premium income that is recognized in the period in which enrollees are entitled to receive health care services. Net premium income is shown net of reinsurance premiums paid and reinsurance premiums incurred but not paid in the financial statements.

Comprehensive commercial health plans with MLRs on fully insured products, as calculated under the definitions in the ACA and implementing regulations, that fall below certain targets are required to rebate ratable portions of premiums annually. The Company classifies changes to the estimated rebates and retrospective premium adjustments as change in reserve for rate credits in the financial statements (see Note 24). In addition, pursuant to Section 1343 of the ACA, the Company records premium adjustments for changes to the commercial risk corridor and commercial risk adjustment balances which are reflected in net premium income, respectively, in the financial statements (see Note 24).

Medicare Plans with MLRs on fully insured products, as calculated under the definitions in the ACA and implementing regulations, that fall below certain targets are required to rebate ratable portions of premiums annually. In addition, the Company records premium adjustments for changes to the CMS Medicare Plans risk corridor program. Changes to these estimates are reflected in change in reserve for rate credits in the financial statements (see Note 24). Net premium income also includes premium under the Medicare Plans which includes CMS premiums, including amounts pursuant to the CMS risk adjustment program (see Note 24), and member premiums, and the CMS low-income premium subsidy for the Company's insurance risk coverage.

The Medicaid plan is subject to experience rated rebates, including MLRs and risk corridor programs and risk adjustment program based on various utilization measures. The Company records premium adjustments for the changes to the estimates for experience rated rebates and risk corridor programs which are reflected in change in reserve for rate credits and for the risk adjustment program and performance guarantees which are reflected in net premium income in the financial statements (see Note 24). Net premium income also includes amounts paid by state and federal governments on a per member basis in exchange for the provision and administration of medical benefits under the Medicaid and CHIP, home nursing risk-sharing payments, high-dollar risk pool payments, and maternity payments. Premiums are contractual and are recognized in the coverage period in which members are entitled to receive services, except in the case of maternity payments. Maternity income is billed on contractual rates and recognized as income as each birth case is identified by the Company.

- **Total Hospital and Medical Expenses** — Total hospital and medical expenses include claims paid, claims processed but not yet paid, estimates for claims received but not yet processed, estimates for the costs of health care services enrollees have received but for which claims have not yet been submitted, and payments and liabilities for physician, hospital, and other medical costs disputes.

Total hospital and medical expenses also include amounts incurred for incentive pool, withhold adjustments, and bonus amounts that are based on the underlying contractual provisions with the respective providers. In addition, adjustments to claims unpaid estimates and aggregate health claim reserves are reflected in the period once the change in estimate is identified and included in total hospital and medical expenses in the financial statements.

- **General Administrative Expenses** — General expenses that have been paid as of the reporting date in addition to general expenses that have been incurred but are not due until a subsequent period are reported as general administrative expenses. Pursuant to the terms of the Agreement (see Note 10), the Company pays a management fee to UHS in exchange for administrative and management services. Costs for items not included within the scope of the Agreement are directly expensed as incurred. State income taxes are also a component of GAE. A detailed review of the administrative expenses of the Company and UHS is performed to determine the allocation between CAE and GAE to be reported in the financial statements.
- **Federal Income Taxes Incurred** — The provision for federal income taxes incurred is calculated based on applying the statutory federal income tax rate of 21% to net income before federal income taxes and net realized capital gains (losses) subject to certain adjustments (see Note 9).

REINSURANCE

- **Reinsurance Ceded** — The Company has an insolvency-only reinsurance agreement with UnitedHealthcare Insurance Company (“UHIC”), an affiliate whereby 0.4% of net premium income is ceded to UHIC (see Note 23).
- **Ceded Reinsurance Premiums Payable** — The ceded reinsurance premiums payable balance represents amounts due to the reinsurers for specified coverage which will be paid based on the contract terms.

OTHER

- **Vulnerability Due to Certain Concentrations** — The Company is subject to substantial federal and state government regulation, including licensing and other requirements relating to the offering of the Company’s existing products in new markets and offerings of new products, both of which may restrict the Company’s ability to expand its business.

The Company has no commercial customers that individually exceed 10% of total direct premiums written uncollected premiums, including receivables for contracts subject to redetermination, for the years ended December 31, 2022 and 2021.

Direct premiums written and uncollected premiums, including receivables for contracts subject to redetermination, from members and CMS related to the Medicare Plans as a percentage of total direct premiums written and total uncollected premiums, including receivables for contracts subject to redetermination, are 84% and 84% as of December 31, 2022 and 81% and 85% as of December 31, 2021, respectively.

Direct premiums written and uncollected premiums, including receivables for contracts subject to redetermination, from the State of Nebraska, DHHS as a percentage of total direct premiums written and total uncollected premiums, including receivables for contracts subject to redetermination, are 15% and 16% as of December 31, 2022 and 19% and 15% as of December 31, 2021, respectively.

Recently Issued Accounting Standards —The Company reviewed all recently issued guidance in 2022 and 2021 that has been adopted for 2022 or subsequent years’ implementation and has determined that none of the items would have a significant impact to the financial statements.

D. Going Concern

2. ACCOUNTING CHANGES AND CORRECTIONS OF ERRORS

No changes in accounting principles or corrections of errors have been recorded during the years ended December 31, 2022 and 2021.

3. BUSINESS COMBINATIONS AND GOODWILL

A–E. The Company was not party to a business combination during the years ended December 31, 2022 and 2021, and does not carry goodwill in its financial statements.

4. DISCONTINUED OPERATIONS

A. Discontinued Operation Disposed of or Classified as Held for Sale

(1–4) The Company did not have any discontinued operations disposed of or classified as held for sale during 2022 and 2021.

B. Change in Plan of Sale of Discontinued Operation — Not applicable.

C. Nature of any Significant Continuing Involvement with Discontinued Operations after Disposal — Not applicable.

D. Equity Interest Retained in the Discontinued Operation after Disposal — Not applicable.

The gross realized gains and losses on sales of long-term investments were \$0 and \$7,427, respectively, for 2022 and \$1,243,900 and \$0, respectively, for 2021. There were no gross realized gains and losses on sales of short-term investments for 2022 and 2021. The net realized gain or loss is included in net realized capital gains (losses) less taxes in the financial statements. Total proceeds on the sale of long-term investments were \$315,619 and \$15,998,965 for 2022 and 2021, respectively and there were no sales of short-term investments in 2022 and 2021.

As of December 31, 2022 and 2021, the book/adjusted carrying value, fair value, and gross unrecognized unrealized gains and losses of the Company's investments, excluding cash overdrafts and cash equivalents of \$296,979,224 and \$81,376,368 respectively, are disclosed in the table below:

The unrecognized unrealized losses on investments in U.S. government and agency securities, state and agency municipal securities, city and county municipal securities, and corporate debt securities at December 31, 2022 and 2021, were mainly caused by interest rate fluctuations and not by unfavorable changes in the credit ratings associated with these securities. The Company evaluates impairment at each reporting period for each of the securities whereby the fair value of the investment is less than its book/adjusted carrying value. The contractual cash flows of the U.S. government and agency securities are guaranteed either by the U.S. government or an agency of the U.S. government. It is expected that the securities would not be settled at a price less than the cost of the investment, and the Company does not intend to sell the investment until the unrealized loss is fully recovered. The Company assessed the credit quality of the state and agency municipal securities, city and county municipal securities and corporate debt securities, noting whether a significant deterioration since purchase or other factors that may indicate an other-than temporary impairment (“OTTI”) such as the length of time and extent to which fair value has been less than cost, the financial condition, and near term prospects of the issuer as well as specific events or circumstances that may influence the operations of the issuer and the Company’s intent to sell the investment. Additionally, the Company evaluated its intent and ability to retain loan-backed securities for a period of time sufficient to recover the amortized cost. As a result of these reviews, the Company recorded OTTIs of \$95,868 and \$0 as of December 31, 2022 and 2021, respectively, which are included in net realized capital gains (losses) less taxes in the financial statements.

A–C. The Company has no mortgage loans, real estate loans, restructured debt, or reverse mortgages. The Company also has no real estate property occupied by the Company, real estate property held for the production of income, or real estate property held for sale.

D. Loan-Backed Securities

- (1) U.S. government and agency securities and corporate debt securities include loan-backed securities (mortgage-backed securities and asset-backed securities), which are valued using the retrospective adjustment methodology. Prepayment assumptions for the determination of the book/adjusted carrying value, commonly referred to as amortized cost, of loan-backed securities are based on a three-month constant prepayment rate history obtained from external data source vendors.
- (2) The Company did not recognize any OTTIs on loan-backed securities as of December 31, 2022 and 2021.
- (3) The Company did not have any loan-backed securities OTTIs to report by CUSIP as of December 31, 2022 or 2021.
- (4) The following table illustrates the fair value, gross unrecognized unrealized losses, and length of time that the loan-backed securities have been in a continuous unrecognized unrealized loss position as of December 31, 2022 and 2021:

	2022
The aggregate amount of unrealized losses:	
1. Less than 12 months	\$ 9,410,925
2. 12 months or longer	5,218,747
The aggregate related fair value of securities with unrealized losses:	
1. Less than 12 months	129,289,995
2. 12 months or longer	34,470,299
	2021
The aggregate amount of unrealized losses:	
1. Less than 12 months	\$ 478,666
2. 12 months or longer	94,910
The aggregate related fair value of securities with unrealized losses:	
1. Less than 12 months	43,544,167
2. 12 months or longer	2,869,419

(5) The Company believes that it will continue to collect timely the principal and interest due on its loan-backed securities that have an amortized cost in excess of fair value. The unrealized losses were primarily caused by interest rate changes and not by unfavorable changes in the credit quality associated with these securities that impacted the assessment on collectability of principal and interest. At each reporting period, the Company evaluates available-for-sale debt securities for any credit-related impairment when the fair value of the investment is less than its amortized cost. The Company evaluated the expected cash flows and the underlying credit quality and credit ratings of the issuers, noting no significant credit deterioration since purchase. As of December 31, 2022, the unrealized loss on any security that the Company classified as available for sale was not material to the Company's investment portfolio. Any other securities in an unrealized loss position as of December 31, 2022, the Company considers to be temporary.

The entities included within the consolidated return are included in the NAIC Statutory Statement Schedule Y - Information Concerning Activities of Insurer Members Of A Holding Company Group. Federal income taxes are paid to or refunded by UnitedHealth Group pursuant to the terms of a tax-sharing agreement, approved by the Board of Directors, under which taxes approximate the amount that would have been computed on a separate company basis, with the exception of net operating losses and capital losses. For these losses the Company receives a benefit at the federal rate in the current year for current taxable losses incurred in that year to the extent losses can be utilized in the consolidated federal return of UnitedHealth Group. UnitedHealth Group currently files income tax returns in the U.S. federal jurisdiction, various states, and foreign jurisdictions. The U.S. IRS has completed exams on UnitedHealth Group's consolidated income tax returns for fiscal years 2016 and prior. UnitedHealth Group's 2017 through 2020 tax returns are under review by the IRS under its Compliance Assurance Program. With the exception of a few states, UnitedHealth Group is no longer subject to income tax examinations prior to the 2014 tax year. In general, the Company is subject to examination in non-U.S. jurisdictions for years 2015 and forward. The Company does not believe any adjustments that may result from these examinations will be material to the Company.

The Company holds a \$100,000,000 subordinated revolving credit agreement with UnitedHealth Group at an interest rate of London InterBank Offered Rate ("LIBOR") plus a margin of 0.50%. This credit agreement is subordinate to the extent it does not conflict with any credit facility held by either party. The agreement was terminated effective December 31, 2022. Due to the elimination of LIBOR as an interest rate benchmark in 2023, this agreement will be modified in 2023. No amounts were outstanding under the line of credit as of December 31, 2022 and 2021. There is no interest paid or still accrued on all borrowings throughout the year as of December 31, 2022 and 2021.

E. The administrative services, access fees, and cost of care services provided by affiliates are calculated using one or more of the following methods: (1) a percentage of premiums; (2) use of assets; (3) direct pass-through of charges; (4) per member per month; (5) per employee per month; (6) per claim; or (7) a combination thereof consistent with the provisions contained in each contract. These amounts are included in GAE, CAE, and hospital and medical expenses in the financial statements. 14. LIABILITIES, CONTINGENCIES AND ASSESSMENTS

B. Assessments

The Company is not aware of any guaranty fund assessments or premium tax offsets, potential or accrued, that could have a material financial effect on the operations of the entity.

C. Gain Contingencies

The Company is not aware of any gain contingencies that should be disclosed in the financial statements.

D. Claims Related Extra Contractual Obligation and Bad Faith Losses Stemming from Lawsuits — Not applicable.

E. Joint and Several Liabilities — Not applicable.

F. All Other Contingencies

The Company's business is regulated at the federal, state, and local levels. The laws and rules governing the Company's business and interpretations of those laws and rules are subject to frequent change. Broad latitude is given to the agencies administering those regulations. Further, the Company must obtain and maintain regulatory approvals to market and sell many of its products.

The Company has been, or is currently involved, in various governmental investigations, audits and reviews. These include routine, regular and special investigations, audits and reviews by CMS, state insurance and health and welfare departments and other governmental authorities. The Company cannot reasonably estimate the range of loss, if any, that may result from any material government investigations, audits and reviews in which it is currently involved given the inherent difficulty in predicting regulatory action, fines and penalties, if any, and the various remedies and levels of judicial review available to the Company in the event of an adverse finding.

On February 14, 2017, the Department of Justice (“DOJ”) announced its decision to pursue certain claims within a lawsuit initially asserted against the Company and filed under seal by a whistleblower in 2011. The whistleblower’s complaint, which was unsealed on February 15, 2017, alleges that the Company made improper risk adjustment submissions and violated the False Claims Act. On February 12, 2018, the court granted in part and denied in part the Company’s motion to dismiss. In May 2018, the DOJ moved to dismiss the Company’s counterclaims, which were filed in March 2018, and moved for partial summary judgment. In March 2019, the court denied the government’s motion for partial summary judgment and dismissed the Company’s counterclaims without prejudice. The Company cannot reasonably estimate the outcome that may result from this matter given its procedural status.

Because of the nature of its businesses, the Company is frequently made party to a variety of legal actions and regulatory inquiries, including class actions and suits brought by members, care providers, consumer advocacy organizations, customers and regulators, relating to the Company’s businesses, including management and administration of health benefit plans and other services.

The Company records liabilities for its estimates of probable costs resulting from these matters where appropriate. Estimates of costs resulting from legal and regulatory matters involving the Company are inherently difficult to predict, particularly where the matters involve: indeterminate claims for monetary damages or may involve fines, penalties or punitive damages; present novel legal theories or represent a shift in regulatory policy; involve a large number of claimants or regulatory bodies; are in the early stages of the proceedings; or could result in a change in business practices. Accordingly, the Company is often unable to estimate the losses or ranges of losses for those matters where there is a reasonable possibility, or it is probable that a loss may be incurred. Although the outcomes of any such legal actions cannot be predicted, in the opinion of management, the resolution of any currently pending or threatened actions will not have a material adverse effect on the financial statements of the Company.

The Company routinely evaluates the collectability of all receivable amounts included in the financial statements. Impairment reserves are established for those amounts where collectability is uncertain. Based on the Company’s past experience, exposure related to uncollectible balances and the potential of loss for those balances not currently reserved for is not material to the Company’s statutory basis financial condition.

There are no assets that the Company considers to be impaired at December 31, 2022 and 2021, except as disclosed in Note 5.

15. LEASES

A–B. According to the Agreement between the Company and UHS (see Note 10), operating leases for the rental of office facilities and equipment are the responsibility of UHS. Fees associated with the lease agreements are included as a component of the Company’s management fee.

A–B. The Company has no operations from Administrative Services Only Contracts or Administrative Services Contracts in 2022 and 2021.

C. Medicare or Other Similarly Structured Cost Based Reimbursement Contract

The Medicare Part D program is a partially insured plan. The Company recorded a receivable of \$0 and \$10,207,315 and a payable of \$56,905,117 and \$0 at December 31, 2022 and 2021, respectively, for cost reimbursement under the Medicare Part D program for the catastrophic reinsurance and low-income member cost-sharing subsidies. The Company also recorded a receivable of \$29,397,663 and \$22,489,473 and also a payable of \$44,961,611 and \$24,882,863 at December 31, 2022 and 2021, respectively, for the Medicare Part D coverage gap discount program. The receivables and payables are recorded in amounts receivable relating to uninsured plans and liability for amounts held under uninsured plans, respectively, in the financial statements.

The State, DHHS, and the Company have a contract for the purposes of increasing reimbursement for Medicaid eligible services to the Company, which in turn is required to be passed through to the University of Nebraska Medical Center (“UNMC”). The program was approved by the CMS, pursuant to Nebraska Medicaid Reform to develop a physician upper limit program that provides higher reimbursement to designated physician groups. The Company will pass-through 100% of the UNMC supplemental capitation payment received from the State, DHHS. The Company assumes no risk and does not recognize any premium revenue or medical benefit expenses. The Company has recorded a liability of \$0 and \$12,082,312 to UNMC reported in liability for amounts held under uninsured plans as of December 31, 2022 and December 31, 2021, respectively.

19. DIRECT PREMIUM WRITTEN/PRODUCED BY MANAGING GENERAL AGENTS/THIRD-PARTY ADMINISTRATORS

The Company did not have any direct premiums written or produced by managing general agents or third-party administrators in 2022 and 2021.

20. FAIR VALUE MEASUREMENTS

The NAIC SAP defines fair value, establishes a framework for measuring fair value, and outlines the disclosure requirements related to fair value measurements. The fair value hierarchy is as follows:

Level 1 — Quoted (unadjusted) prices for identical assets in active markets.

Level 2 — Other observable inputs, either directly or indirectly, including:

- Quoted prices for similar assets in active markets;
- Quoted prices for identical or similar assets in nonactive markets (few transactions, limited information, noncurrent prices, high variability over time, etc.);
- Inputs other than quoted prices that are observable for the asset (interest rates, yield curves, volatilities, default rates, etc.);
- Inputs that are derived principally from or corroborated by other observable market data.

Level 3 — Unobservable inputs that cannot be corroborated by observable market data.

The estimated fair values of bonds and cash equivalents are based on quoted market prices, where available. The Company obtains one price for each security primarily from a third-party pricing service (“pricing service”), which generally uses quoted prices or other observable inputs for the determination of fair value. The pricing service normally derives the security prices through recently reported trades for identical or similar securities, making adjustments through the reporting date based upon available observable market information. For securities not actively traded, the pricing service may use quoted market prices of comparable instruments or discounted cash flow analyses, incorporating inputs that are currently observable in the markets for similar securities. Inputs that are often used in the valuation methodologies include, but are not limited to, non-binding broker quotes, benchmark yields, credit spreads, default rates, and prepayment speeds. As the Company is responsible for the determination of fair value, it performs quarterly analyses on the prices received from the pricing service to determine whether the prices are reasonable estimates of fair value. Specifically, the Company compares the prices received from the pricing service to a secondary pricing source, prices reported by its custodian, its investment consultant, and third-party investment advisors. Additionally, the Company compares changes in the reported market values and returns to relevant market indices to test the reasonableness of the reported prices. The Company’s internal price verification procedures and review of fair value methodology documentation provided by independent pricing services have not historically resulted in an adjustment in the prices obtained from the pricing service.

In instances in which the inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest-level input that is significant to the fair value measurement in its entirety. The Company’s assessment of the significance of a particular item to the fair value measurement in its entirety requires judgment, including the consideration of inputs specific to the asset or liability.

E. Risk-Sharing Provisions of the Affordable Care Act

- (1) The Company has accident and health insurance premiums in 2022 and 2021 subject to the risk-sharing provisions of the ACA.

The ACA imposed fees and premium stabilization provisions on health insurance issuers offering comprehensive commercial health insurance. The three premium stabilization programs are commonly referred to as the 3Rs — risk adjustment, reinsurance, and risk corridors.

Risk Adjustment — The risk adjustment program is a permanent program designed to mitigate the potential impact of adverse selection that generally applies to non-grandfathered individual and small group plans inside and outside of exchanges. The program helps to stabilize market premiums by transferring funds from plans with relatively low-risk enrollees to plans with relatively high-risk enrollees. The data used by CMS to determine the risk adjustment transfer amount is subject to audits along with the true-up to the final CMS report, which may result in a material change to arrive at the final risk adjustment amount from the initial risk adjustment estimate recorded. Premium adjustments pursuant to the risk adjustment program are accounted for as premium subject to redetermination and user fees are accounted for as assessments.

Reinsurance and Risk Corridors — The transitional reinsurance program and risk corridors program were temporary programs which expired at the end of 2016. The details of the years impacted and the amounts received are included in Note 24E(5) below.

The liability for claims unpaid, accrued medical incentive pool and bonus amounts, aggregate health claim reserves, net of health care and other amounts receivable (excluding provider loans and advances not yet expensed), as of December 31, 2021 was \$288,274,317. As of December 31, 2022, \$253,279,764 has been paid for incurred claims attributable to insured events of prior years. Reserves remaining for prior years, health care and other amounts receivable (excluding provider loans and advances not yet expensed) are now \$8,980,241, as a result of re-estimation of unpaid claims. Therefore, there has been \$26,014,312 favorable prior year development since December 31, 2021 to December 31, 2022. The primary drivers consist of favorable development as a result of a change in the provision for adverse deviations in experience of \$11,970,405 and favorable development of \$7,761,519 in retroactivity for inpatient, outpatient, physician, and pharmacy claims.

At December 31, 2021, the Company recorded \$42,916,971 of favorable development. The primary drivers consist of favorable development of \$23,550,972 in retroactivity for inpatient, outpatient, physician, and pharmacy claims, favorable development as a result of a change in the provision for adverse deviations in experience of \$13,649,740, and favorable risk share receivables of \$4,745,249. Original estimates are increased or decreased, as additional information becomes known regarding individual claims, which could have an impact to the accruals for MLR rebates and retrospectively rated contracts. As a result of the prior year effects, on a regular basis, the Company adjusts revenue and the corresponding liability and/or receivable related to retrospectively rated policies and the impact of the change is included as a component of change in reserve for rate credits in the financial statements.

The Company incurred CAE of \$185,153,696 and \$135,468,770 in 2022 and 2021, respectively. These costs are included in the management service fees paid by the Company to UHS as a part of the Agreement (see Note 10). The following table discloses paid CAE, incurred CAE, and the balance in unpaid CAE reserve for 2022 and 2021:

	2022	2021
Total claims adjustment expenses	\$ 185,153,696	\$ 135,468,770
Less: current year unpaid claims adjustment expenses	(4,126,162)	(2,718,243)

- B. The Company did not make any significant changes in methodologies and assumptions used in the calculation of the liability for claims unpaid and unpaid CAE in 2022.

26. INTERCOMPANY POOLING ARRANGEMENTS

- A–G. The Company did not have any intercompany pooling arrangements in 2022 or 2021.

27. STRUCTURED SETTLEMENTS

- A–B. The Company did not have structured settlements in 2022 or 2021.

28. HEALTH CARE AND OTHER AMOUNTS RECEIVABLE

- A. Pharmacy rebates receivable are recorded when reasonably estimated or billed by the affiliated pharmaceutical benefit manager in accordance with pharmaceutical rebate contract provisions. Information used to support rebates billed to the manufacturer is based on utilization information gathered by the pharmaceutical benefit manager and adjusted for significant changes in pharmaceutical contract provisions.

The Company evaluates the admissibility of all pharmacy rebates receivable based on the administration of each underlying pharmaceutical benefit management agreement. The Company has nonadmitted and excluded all pharmacy rebates receivable that do not meet the admissibility criteria of SSAP No. 84, *Health Care and Government Insured Plan Receivables* (“SSAP No. 84”) from the financial statements.

For each pharmaceutical management agreement for which a portion of the total pharmacy rebates receivable can be admitted based on the admissibility criteria of SSAP No. 84, the pharmacy rebate transaction history is summarized as follows:

Quarter	Estimated Pharmacy Rebates as Reported on Financial Statements	Pharmacy Rebates as Billed or Otherwise Confirmed	Actual Rebates Received within 90 Days of Billing	Actual Rebates Received within 91 to 180 Days of Billing	Actual Rebates Received More than 180 Days after Billing
