UNITEDHEALTHCARE OF ARKANSAS, INC.

NOTES TO STATUTORY BASIS FINANCIAL STATEMENTS
AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2023 AND 2022

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND GOING CONCERN

UnitedHealthcare of Arkansas, Inc. (the "Company"), licensed as a health maintenance organization, offers its enrollees a variety of managed care programs and products through contractual arrangements with health care providers. The Company was incorporated on September 27, 1990, as a health maintenance organization and operations commenced in April 1992. The Company is certified as a health maintenance organization by the Arkansas Insurance Department. The Company has entered into contracts with physicians, hospitals, and other health care provider organizations to deliver health care services for all enrollees.

The Company offers comprehensive commercial products to employer groups. Each contract outlines the coverage provided and renewal provisions.

Effective January 1, 2022, the Company novated its CMS contract to affiliate, UnitedHealthcare of the Midlands, Inc. The novation agreement resulted in full control of the contract being transferred to UnitedHealthcare of the Midlands, Inc. at $0 net book value for the dates of service on or after January 1, 2022. Approval for this novation was received from CMS. Approval for the asset transfer related to the novation was received from the Alabama Department of Insurance and was not required by the Arkansas Insurance Department.

A. Accounting Practices

The statutory basis financial statements (herein referred to as "financial statements") are presented on the basis of accounting practices prescribed or permitted by the Arkansas Insurance Department.

The Arkansas Insurance Department recognizes only statutory accounting practices, prescribed or permitted by the State of Arkansas, for determining and reporting the financial condition and results of operations of a health maintenance organization, for determining its solvency under Arkansas Insurance Law. The State of Arkansas prescribes the use of the National Association of Insurance Commissioners' ("NAIC") Accounting Practices and Procedures manual ("NAIC SAP") in effect for the accounting periods covered in the financial statements.

No significant differences exist between the practices prescribed or permitted by the State of Arkansas and the NAIC SAP which materially affect the statutory basis net income (loss) and capital and surplus, as illustrated in the table below:

Net Income (Loss)	SSAP #	F/S Page #	F/S Line #	December 31, 2023	December 31, 2022
(1) Company state basis (Page 4, Line 32, Columns 2 & 3)	XXX	XXX	XXX	$ 1,475,808	$ 2,896,339

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of these financial statements in conformity with the NAIC Annual Statement Instructions and the NAIC SAP include certain amounts that are based on the Company's estimates and judgments. These estimates require the Company to apply complex assumptions and judgments, often because the Company must make estimates about the effects of matters that are inherently uncertain and will change in subsequent periods. The most significant estimates relate to hospital and medical benefits, claims unpaid, aggregate health policy reserves (including medical loss ratio ("MLR") rebates), aggregate health claim reserves, risk corridor, and risk adjustment estimates. The Company adjusts these estimates each period as more current information becomes available. The impact of any changes in estimates is included in the determination of net income (loss) in the period in which the estimate is adjusted.

C. Accounting Policy

Basis of Presentation — The Company prepares its financial statements on the basis of accounting practices prescribed or permitted by the Arkansas Insurance Department. These statutory practices differ from accounting principles generally accepted in the United States of America ("GAAP").

Accounting policy disclosures that are required by the NAIC Annual Statement instructions are as follows:

(1–2) The Company holds no short-term investments**.** Bonds are stated at book/adjusted carrying value if they meet NAIC designation of one or two and stated at the lower of book/adjusted carrying value or fair value if they meet an NAIC designation of three or higher. The Company does not have any mandatory convertible securities or Securities Valuation Office of the NAIC ("SVO") identified funds (i.e.: exchange traded funds or bond mutual funds) in its bond portfolio. Amortization of bond premium or accretion of discount is calculated using the constant yield interest method. Bonds and short-term investments are valued and reported using market prices published by the SVO in accordance with the NAIC Valuation of Securities manual prepared by the SVO or an external pricing service;

(3–4) The Company holds no common or preferred stock;

(5) The Company holds no mortgage loans on real estate;

(6) The Company holds no loan-backed securities;

(7) The Company holds no investments in subsidiaries, controlled, or affiliated entities;

(8) The Company has no investment interests with respect to joint ventures, partnerships, or limited liability companies;

(9) The Company holds no derivatives;

(10) Premium deficiency reserves ("PDR") (inclusive of conversion reserves) and the related expenses are recognized when it is probable that expected future health care expenses, claims adjustment expenses (“CAE”), direct administration costs, and an allocation of indirect administration costs under a group of existing contracts will exceed anticipated future premiums and reinsurance recoveries considered over the remaining lives of the contracts, and are recorded as aggregate health policy reserves in the financial statements. Indirect administration costs arise from activities that are not specifically identifiable to a specific group of existing contracts, and therefore, those costs are fully allocated among the various contract groupings. The allocation of indirect administration costs to each contract grouping is made proportionately to the expected margins remaining in the premiums after future health care expenses, CAE and direct administration costs are considered. The data and assumptions underlying such estimates and the resulting reserves are periodically updated, and any adjustments are reflected as an increase in reserves for life and accident and health contracts in the financial statements in the period in which the change in estimate is identified. The Company does anticipate investment income as a factor in the PDR calculation (see Note 30);

(11) CAE are those costs expected to be incurred in connection with the adjustment and recording of accident and health claims. Pursuant to the terms of the Agreement (see Note 10), the Company pays a management fee to its affiliate, United HealthCare Services, Inc., in exchange for administrative and management services. A detailed review of the administrative expenses of the Company and United HealthCare Services, Inc. is performed to determine the allocation between CAE and general administrative expenses (“GAE”) to be reported in the financial statements. It is the responsibility of United HealthCare Services, Inc. to pay CAE in the event the Company ceases operations. The Company has recorded an estimate of unpaid CAE associated with incurred but unpaid claims, which is included in unpaid CAE in the financial statements. Management believes the amount of the liability for unpaid CAE as of December 31, 2023 is adequate to cover the Company’s cost for the adjustment and recording of unpaid claims; however, actual expenses may differ from those established estimates. Adjustments to the estimates for unpaid CAE are reflected in operating results in the period in which the change in estimate is identified;

(12) The Company does not carry any fixed assets in the financial statements;

(13) Health care and other amounts receivable consist of pharmacy rebates receivable estimated based on the most currently available data from the Company’s claims processing systems and from data provided by the Company’s affiliated pharmaceutical benefit manager, Optum Rx, Inc. Health care and other amounts receivable also include receivables for capitation arrangements, amounts due to the Company for provider advances and claim overpayments to providers, hospitals and other health care organizations. In addition, the Company has agreements with certain independent physicians and physician network organizations that provide for the establishment of a fund into which the Company places monthly premiums payable for members assigned to the physician. The Company manages the disbursement of funds from this account as well as reviews the utilization of nonprimary care medical services of members assigned to the physicians. Any deficits in the fund are shared by the Company and the physician based upon predetermined risk-sharing percentages and any associated receivable is included in health care and other amounts receivable. Health care and other amounts receivable are considered nonadmitted assets under the NAIC SAP if they do not meet admissibility requirements. Accordingly, the Company has excluded receivables that do not meet the admissibility criteria from the financial statements (see Note 28).

The Company has also deemed the following to be significant accounting policies:

ASSETS

Cash and Invested Assets

- Cash represents cash held by the Company in operating accounts. Claims and other payments are made from the operating accounts daily;

- Realized capital gains and losses on sales of investments are calculated based upon specific identification of the investments sold. These gains and losses are reported as net realized capital gains (losses) less capital gains tax (“net realized capital gains (losses) less taxes”) in the financial statements. The Company has not recognized any realized capital gains or losses on sales of investments in 2023 or 2022;

- The Company continually monitors the difference between amortized cost and estimated fair value of its investments. If any of the Company’s investments experience a decline in value that the Company has determined is other-than-temporary, or if the Company has determined it will sell a security that is in an impaired status, the Company will record a realized loss in net realized capital gains (losses) less taxes in the financial statements. The new cost basis is not changed for subsequent recoveries in fair value. The prospective adjustment method is utilized for loan-backed securities for periods subsequent to the loss recognition (see Note 5).

Other Assets

- **Premiums and Considerations —** The Company reports uncollected premium balances from its insured members, groups, and CMS as premiums and considerations in the financial statements. Uncollected premium balances that are over 90 days past due, with the exception of amounts due from government insured plans, are considered nonadmitted assets. In addition to those balances, current balances are also considered nonadmitted if the corresponding balance greater than 90 days past due is deemed more than inconsequential. Premiums and considerations also include amounts for commercial risk adjustment receivables as defined in Section 1343 of the Affordable Care Act ("ACA"), CMS risk corridor receivables, and CMS risk adjustment receivables for the Medicare Plans;

Premium adjustments for the CMS risk corridor programs are accounted for as premium adjustments subject to retrospectively rated features (see Note 24). Premium adjustments for the commercial ACA Section 1343 risk adjustment and CMS risk adjustment programs are accounted for as premium adjustments subject to redetermination (see Note 24).

LIABILITIES

- **Claims Unpaid and Aggregate Health Claim Reserves —** Claims unpaid and aggregate health claim reserves include claims processed but not yet paid, estimates for claims received but not yet processed, estimates for the costs of health care services enrollees have received but for which claims have not yet been submitted, and payments and liabilities for physician, hospital, and other medical costs disputes.

  The estimates for incurred but not yet reported claims are developed using an actuarial process that is consistently applied, centrally controlled, and automated. The actuarial models consider factors such as historical submission and payment data, cost trends, customer and product mix, seasonality, utilization of health care services, contracted service rates, and other relevant factors. The Company estimates such liabilities for physician, hospital, and other medical cost disputes based upon an analysis of potential outcomes, assuming a combination of litigation and settlement strategies. These estimates may change as actuarial methods change or as underlying facts upon which estimates are based change. The Company did not change actuarial methods during 2023 and 2022. Management believes the amount of claims unpaid and aggregate health claim reserves is a best estimate of the Company's liability for unpaid claims and aggregate health claim reserves as of December 31, 2023; however, actual payments may differ from those established estimates.

  The Company contracts with hospitals, physicians, and other providers of health care under capitated or discounted fee for service arrangements, including a hospital per diem to provide medical care services to enrollees. Some of these contracts are with related parties (see Note 10). Capitated providers are at risk for the cost of medical care services provided to the Company's enrollees; however, the Company is ultimately responsible for the provision of services to its enrollees should the capitated provider be unable to provide the contracted services.

- **Aggregate Health Policy Reserves —** The Company establishes a liability for estimated accrued retrospective and redetermination premiums due from the Company based on the actuarial method and assumptions for each respective contract.

  Aggregate health policy reserves includes commercial risk adjustment payables as defined in Section 1343 of the ACA, CMS risk adjustment payables for the Medicare Plans, and estimated MLR rebates payable on the comprehensive commercial and Medicare Plans.

  Premium adjustments for the estimated MLR rebates are accounted for as premium adjustments subject to retrospectively rated features (see Note 24). Premium adjustments for the commercial ACA Section 1343 risk adjustment and CMS risk adjustment are accounted for as premium adjustments subject to redetermination (see Note 24).

CAPITAL AND SURPLUS AND MINIMUM STATUTORY REQUIREMENTS

- **Restricted Cash Reserves —** The Company is in compliance with the State of Arkansas regulatory deposit requirements as of December 31, 2023 and 2022, respectively, for qualification purposes as a domestic insurer. These restricted cash reserves are stated at book/adjusted carrying value, which approximates fair value. These restricted deposits are included in bonds in the financial statements. Interest earned on these deposits accrues to the Company (see Note 5).

- **Minimum Capital and Surplus —** Under the laws of the State of Arkansas, the Arkansas Insurance Department requires the Company to maintain a minimum capital and surplus equal to $100,000.

  Risk-based capital ("RBC") is a regulatory tool for measuring the minimum amount of capital appropriate for a managed care organization to support its overall business operations in consideration of its size and risk profile. The Arkansas Insurance Department requires the Company to maintain minimum capital and surplus equal to the greater of the state statute as outlined above, or the company action level as calculated by the RBC formula, or the level needed to avoid action pursuant to the trend test in the RBC formula.

  The Company is in compliance with the minimum required capital and surplus amounts where it is licensed to do business, as of December 31, 2023 and 2022.

STATEMENTS OF OPERATIONS

- **Net Premium Income and Change in Unearned Premium Reserves and Reserve for Rate Credits —** Revenues consist of net premium income that is recognized in the period in which enrollees are entitled to receive health care services. Net premium income is shown net of reinsurance premiums paid and reinsurance premiums incurred but not paid in the financial statements. The corresponding change in unearned premium from year to year is reflected as a change in unearned premium reserves and reserve for rate credits in the financial statements.

  Comprehensive commercial health plans with MLRs on fully insured products, as calculated under the definitions in the ACA and implementing regulations, that fall below certain targets are required to rebate ratable portions of premiums annually.

The Company has also recorded receivables/payables from employer groups for estimated retrospective premium adjustments due to (from) the Company based on the underlying contractual terms. The Company classifies changes to the estimated rebates and retrospective premium adjustments as change in unearned premium reserves and reserve for rate credits in the financial statements (see Note 24). In addition, pursuant to Section 1343 of the ACA, the Company records premium adjustments for changes to the commercial risk adjustment balances which are reflected in net premium income in the financial statements (see Note 24).

- **Total Hospital and Medical Expenses —** Total hospital and medical expenses include claims paid, claims processed but not yet paid, estimates for claims received but not yet processed, estimates for the costs of health care services enrollees have received but for which claims have not yet been submitted, and payments and liabilities for physician, hospital, and other medical costs disputes.

  Total hospital and medical expenses also include amounts incurred for incentive pool, withhold adjustments, and bonus amounts that are based on the underlying contractual provisions with the respective providers. In addition, adjustments to claims unpaid estimates and aggregate health claim reserves are reflected in the period once the change in estimate is identified and included in total hospital and medical expenses in the financial statements.

- **General Administrative Expenses —** General expenses that have been paid as of the reporting date in addition to general expenses that have been incurred but are not due until a subsequent period are reported as GAE. Pursuant to the terms of the Agreement (see Note 10), the Company pays a management fee to United HealthCare Services, Inc. in exchange for administrative and management services. Costs for items not included within the scope of the Agreement are directly expensed as incurred. Premium taxes are also a component of GAE. A detailed review of the administrative expenses of the Company and United HealthCare Services, Inc. is performed to determine the allocation between CAE and GAE to be reported in the financial statements.

OTHER

- **Vulnerability Due to Certain Concentrations —** The Company is subject to substantial federal and state government regulation, including licensing and other requirements relating to the offering of the Company's existing products in new markets and offerings of new products, both of which may restrict the Company's ability to expand its business.

  The Company has no commercial customers that individually exceed 10% of total direct premiums written and premiums and considerations, including receivables for contracts subject to redetermination, for the years ended December 31, 2023 and 2022.

Recently Issued Accounting Standards

In May 2023, the NAIC revised Statements of Statutory Accounting Principals ("SSAP") No. 34, *Investment Income Due or Accrued* for the updated presentation of investment income (see Note 7), effective for annual 2023. The Company adopted the revision on the effective date.

The Company reviewed all other recently issued guidance in 2023 and 2022 that has been adopted for 2023 or subsequent years' implementation and has determined that none of the items would have a significant impact to the financial statements.

D. Going Concern

The Company has the ability and will continue to operate for a period of time sufficient to carry out its commitments, obligations and business objectives.

2. ACCOUNTING CHANGES AND CORRECTIONS OF ERRORS

No changes in accounting principles have been recorded during the years ended December 31, 2023 and 2022.

No correction of errors have been recorded during the year ended December 31, 2023. During 2022, the Company determined that it had understated PDR within increase in reserves for life and accident and health contracts and overstated Risk Adjustment Data Validation within net premium income by $166,000 and $110,665, respectively, for the year ended December 31, 2021. In addition, federal income taxes incurred as a result of these change in estimates were overstated by $58,100 for the year ended December 31, 2021. Had the above adjustments been recorded to the 2021 financial statements, the change to net income, total capital and surplus, total assets and total liabilities would have been $253,425, $253,425, $(66,555), and $(186,870), respectively. Due to the significance of the change in estimate, the cumulative effect of this prior year estimate was corrected by the Company in accordance with SSAP No. 3, *Accounting Changes and Corrections of Errors,* and is reflected in the financial statements as change in estimate for the year ended December 31, 2022.

3. BUSINESS COMBINATIONS AND GOODWILL

A–E. The Company was not party to a business combination during the years ended December 31, 2023 and 2022, and does not carry goodwill in its financial statements.

C. Nature of any Significant Continuing Involvement with Discontinued Operations after Disposal — Not applicable.

D. Equity Interest Retained in the Discontinued Operation after Disposal — Not applicable.

5. INVESTMENTS

For purposes of calculating gross realized gains and losses on sales of investments, the amortized cost of each investment sold is used. The Company does not have any realized gains or losses at December 31, 2023 and 2022. The Company had no proceeds on the sale of long-term investments or short-term investments in 2023 and 2022.

As of December 31, 2023 and 2022, the book/adjusted carrying value, fair value, and gross unrecognized unrealized gains and losses of the Company's investments, excluding cash and cash equivalents of $32,707,681, and $38,189,949, respectively, are disclosed in the table below:

Total bonds	$ 316,754	$ —	$ —	$ 12,034	$ 316,754

The Company does not have any mortgage-related loan-backed securities included in the tables above.

The following table illustrates the fair value and gross unrecognized unrealized losses, aggregated by investment category and length of time that the individual securities have been in a continuous unrecognized unrealized loss position as of December 31, 2023 and 2022:

	2023					
	< 1 Year		> 1 Year		Total	
	Fair Value	Gross Unrecognized Unrealized Losses	Fair Value	Gross Unrecognized Unrealized Losses	Fair Value	Gross Unrecognized Unrealized Losses

Total bonds	$ —	$ —	$ 304,720	$ 12,034	$ 304,720	$ 12,034

The Company has no unrecognized unrealized losses on investments as of December 31, 2023.The unrecognized unrealized losses on investments in U.S. government and agency securities at December 31, 2022 were mainly caused by interest rate fluctuations and not by unfavorable changes in the credit ratings associated with these securities. The Company evaluates impairment at each reporting period for each of the securities whereby the fair value of the investment is less than its book/adjusted carrying value. The contractual cash flows of the U.S. government and agency securities are guaranteed either by the U.S. government or an agency of the U.S. government. It is expected that the securities would not be settled at a price less than the cost of the investment, and the Company does not intend to sell the investment until the unrealized loss is fully recovered. As a result of these reviews, no other-than-temporary impairments ("OTTI") were recorded by the Company as of December 31, 2023 and 2022.

The CAMT is calculated as 15% of adjusted financial statement income and applies only to corporations with average annual adjusted financial statement income in excess of $1 billion for three prior taxable years. The applicability of the CAMT is determined on a tax-controlled group basis.

The Company is included in the consolidated federal income tax return with its ultimate parent, UnitedHealth Group Incorporated which constitutes a controlled group. The controlled group's expected federal income tax will exceed the CAMT and therefore the Company does not expect to be subject to the minimum tax.

The controlled group has not made any material modifications to the methodology used to project the CAMT.

D. The provision for federal income taxes incurred is different from that which would be obtained by applying the statutory federal income tax rate of 21% to net income (loss) after capital gains tax and before federal income taxes. A summarization of the significant items causing this difference as of December 31, 2023 and 2022 is as follows:

	2023		2022

F. The Company is included in the consolidated federal income tax return with its ultimate parent, UnitedHealth Group Incorporated. The entities included within the consolidated return are included in the NAIC Statutory Statement Schedule Y - Information Concerning Activities of Insurer Members Of A Holding Company Group. Federal income taxes are paid to or refunded by UnitedHealth Group Incorporated pursuant to the terms of a tax-sharing agreement, approved by the Board of Directors, under which taxes approximate the amount that would have been computed on a separate company basis, with the exception of net operating losses and capital losses. For these losses the Company receives a benefit at the federal rate in the current year for current taxable losses incurred in that year to the extent losses can be utilized in the consolidated federal return of UnitedHealth Group Incorporated. UnitedHealth Group Incorporated currently files income tax returns in the U.S. federal jurisdiction, various states, and foreign jurisdictions. The U.S. IRS has completed exams on UnitedHealth Group Incorporated’s consolidated income tax returns for fiscal years 2016 and prior. 14. LIABILITIES, CONTINGENCIES AND ASSESSMENTS

A. Contingent Commitments

B. Assessments

The Company is not aware of any guaranty fund assessments or premium tax offsets, potential or accrued, that could have a material financial effect on the operations of the entity.

C. Gain Contingencies

The Company is not aware of any gain contingencies that should be disclosed in the financial statements.

D. Claims Related Extra Contractual Obligation and Bad Faith Losses Stemming from Lawsuits — Not applicable.

E. Joint and Several Liabilities — Not applicable.

F. All Other Contingencies

The Company's business is regulated at the federal, state, and local levels. The laws and rules governing the Company's business and interpretations of those laws and rules are subject to frequent change. Broad latitude is given to the agencies administering those regulations. Further, the Company must obtain and maintain regulatory approvals to market and sell many of its products.

The Company has been, or is currently involved, in various governmental investigations, audits and reviews. These include routine, regular, and special investigations, audits and reviews by CMS, state insurance and health and welfare departments and other governmental authorities. The Company cannot reasonably estimate the range of loss, if any, that may result from any material government

investigations, audits and reviews in which it is currently involved given the inherent difficulty in predicting regulatory action, fines and penalties, if any, and the various remedies and levels of judicial review available to the Company in the event of an adverse finding.

On February 14, 2017, the Department of Justice ("DOJ") announced its decision to pursue certain claims within a lawsuit initially asserted against the Company and filed under seal by a whistleblower in 2011. The whistleblower's complaint, which was unsealed on February 15, 2017, alleges that the Company made improper risk adjustment submissions and violated the False Claims Act. On February 12, 2018, the court granted in part and denied in part the Company's motion to dismiss. In May 2018, the DOJ moved to dismiss the Company's counterclaims, which were filed in March 2018, and moved for partial summary judgment. In March 2019, the court denied the government's motion for partial summary judgment and dismissed the Company's counterclaims without prejudice. The Company cannot reasonably estimate the outcome that may result from this matter given its procedural status.

Because of the nature of its businesses, the Company is frequently made party to a variety of legal actions and regulatory inquiries, including class actions and suits brought by members, care providers, consumer advocacy organizations, customers, and regulators, relating to the Company's businesses, including management and administration of health benefit plans and other services.

The Company records liabilities for its estimates of probable costs resulting from these matters where appropriate. Estimates of costs resulting from legal and regulatory matters involving the Company are inherently difficult to predict, particularly where the matters involve: indeterminate claims for monetary damages or may involve fines, penalties or punitive damages; present novel legal theories or represent a shift in regulatory policy; involve a large number of claimants or regulatory bodies; are in the early stages of the proceedings; or could result in a change in business practices. Accordingly, the Company is often unable to estimate the losses or ranges of losses for those matters where there is a reasonable possibility, or it is probable that a loss may be incurred. Although the outcomes of any such legal actions cannot be predicted, in the opinion of management, the resolution of any currently pending or threatened actions will not have a material adverse effect on the financial statements of the Company.

The Company routinely evaluates the collectability of all receivable amounts included in the financial statements. Impairment reserves are established for those amounts where collectability is uncertain. Based on the Company's past experience, exposure related to uncollectible balances and the potential of loss for those balances not currently reserved for is not material to the Company's statutory basis financial condition.

There are no assets that the Company considers to be impaired at December 31, 2023 and 2022.

15. LEASES

A–B. According to the Agreement between the Company and United HealthCare Services, Inc. The Company also recorded a receivable of $0 and $82,510 and also a payable of $5,760 and $0 at December 31, 2023 and 2022, respectively, for the Medicare Part D coverage gap discount program. The Company did not have any direct premiums written or produced by managing general agents or third-party administrators in 2023 and 2022.

20. FAIR VALUE MEASUREMENTS

The NAIC SAP defines fair value, establishes a framework for measuring fair value, and outlines the disclosure requirements related to fair value measurements. The fair value hierarchy is as follows:

Level 1 — Quoted (unadjusted) prices for identical assets in active markets.

Level 2 — Other observable inputs, either directly or indirectly, including:

- Quoted prices for similar assets in active markets;
- Quoted prices for identical or similar assets in nonactive markets (few transactions, limited information, noncurrent prices, high variability over time, etc.);
- Inputs other than quoted prices that are observable for the asset (interest rates, yield curves, volatilities, default rates, etc.);
- Inputs that are derived principally from or corroborated by other observable market data.

Level 3 — Unobservable inputs that cannot be corroborated by observable market data.

The estimated fair values of bonds and cash equivalents (collectively “investment holdings”) are based on quoted market prices, where available. The Company obtains one price for each security primarily from a third-party pricing service (“pricing service”), which generally uses quoted prices or other observable inputs for the determination of fair value. The pricing service normally derives the security prices through recently reported trades for identical or similar securities, making adjustments through the reporting date based upon available observable market information. For securities not actively traded, the pricing service may use quoted market prices of comparable instruments or discounted cash flow analyses, incorporating inputs that are currently observable in the markets for similar securities. Inputs that are often used in the valuation methodologies include, but are not limited to, non-binding broker quotes, benchmark yields, credit spreads, default rates, and prepayment speeds. As the Company is responsible for the determination of fair value, it performs quarterly analyses on the prices received from the pricing service to determine whether the prices are reasonable estimates of fair value. Specifically, the Company compares the prices received from the pricing service to a secondary pricing source, prices reported by its custodian, its investment consultant, and third-party investment advisors. Additionally, the Company compares changes in the reported market values and returns to relevant market indices to test the reasonableness of the reported prices. The Company’s internal price verification procedures and review of fair value methodology documentation provided by independent pricing services have not historically resulted in an adjustment in the prices obtained from the pricing service.

In instances in which the inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest-level input that is significant to the fair value measurement in its entirety. The Company’s assessment of the significance of a particular item to the fair value measurement in its entirety requires judgment, including the consideration of inputs specific to the asset or liability.

E. Risk-Sharing Provisions of the Affordable Care Act

(1) The Company has accident and health insurance premiums in 2023 and 2022 subject to the risk-sharing provisions of the ACA.

The ACA imposed fees and premium stabilization provisions on health insurance issuers offering comprehensive commercial health insurance. The three premium stabilization programs are commonly referred to as the 3Rs — risk adjustment, reinsurance, and risk corridors.

Risk Adjustment — The risk adjustment program is a permanent program designed to mitigate the potential impact of adverse selection that generally applies to non-grandfathered individual and small group plans inside and outside of exchanges. The program helps to stabilize market premiums by transferring funds from plans with relatively low-risk enrollees to plans with relatively high-risk enrollees. The data used by CMS to determine the risk adjustment transfer amount is subject to audits along with the true-up to the final CMS report, which may result in a material change to arrive at the final risk adjustment amount from the initial risk adjustment estimate recorded. Premium adjustments pursuant to the risk adjustment program are accounted for as premium subject to redetermination and user fees are accounted for as assessments.

Reinsurance and Risk Corridors — The transitional reinsurance program and risk corridors program were temporary programs which expired at the end of 2016 and are not applicable to the Company.

25. CHANGE IN INCURRED CLAIMS AND CLAIMS ADJUSTMENT EXPENSES

A. Changes in estimates related to the prior year incurred claims are included in total hospital and medical expenses in the current year in the financial statements. The following tables disclose paid claims, incurred claims, and the balance in claims unpaid, accrued medical incentive pool and bonus amounts, aggregate health claim reserves, and health care and other amounts receivable (excluding provider loans and advances not yet expensed) for the years ended December 31, 2023 and 2022:

	2023

End of year health care receivables*	(1,014,060)	(4,330)	(1,018,390)
Total incurred claims	$ 16,470,734	$ (1,348,556)	$ 15,122,178

*Health care receivables excludes provider loans and advances not yet expensed of $1,831 and $644 for 2023 and 2022, respectively.

	2022		
	Current Year Incurred Claims	Prior Years Incurred Claims	Total
Beginning of year claim reserve	$ —	$ (26,262,346)	$ (26,262,346)
Paid claims — net of health care receivables*	13,561,588	15,301,626	28,863,214
End of year claim reserve	1,975,595	1,011,058	2,986,653
Incurred claims excluding the change in health care receivables	15,537,183	(9,949,662)	5,587,521
Beginning of year health care receivables*	—	7,132,192	7,132,192
End of year health care receivables*	(800,588)	(344,293)	(1,144,881)
Total incurred claims	$ 14,736,595	$ (3,161,763)	$ 11,574,832

*Health care receivables excludes provider loans and advances not yet expensed of $644 and $0 for 2022 and 2021, respectively.

The liability for claims unpaid, accrued medical incentive pool and bonus amounts, and aggregate health claim reserves, net of health care and other amounts receivable (excluding provider loans and advances not yet expensed), as of December 31, 2022 was $1,841,772. As of December 31, 2023, $370,890 has been paid for incurred claims attributable to insured events of prior years. Reserves remaining for prior years, net of health care and other amounts receivable (excluding provider loans and advances not yet expensed) are now $122,326, as a result of re-estimation of unpaid claims. Therefore, there has been $1,348,556 favorable prior year development since December 31, 2022 to December 31, 2023. The primary drivers consist of favorable development of $558,428 in provider settlements, favorable development of $357,791 in retroactivity for inpatient, outpatient, physician, and pharmacy claims, and favorable development as a result of a change in the provision for adverse deviations in experience of $300,733. At December 31, 2022, the Company recorded $3,161,763 of favorable development. The primary drivers consist of favorable development as a result of a change in the provision for adverse deviations in experience of $1,692,539 and favorable development of $805,515 in retroactivity for inpatient, outpatient, physician, and pharmacy claims. Original estimates are increased or decreased, as additional information becomes known regarding individual claims, which could have an impact to the accruals for MLR rebates and retrospectively rated contracts. As a result of the prior year effects, on a regular basis, the Company adjusts revenue and the corresponding liability and/or receivable related to retrospectively rated policies and the impact of the change is included as a component of change in unearned premium reserves and reserve for rate credits in the financial statements.

The Company incurred CAE of $938,222 and $1,063,892 in 2023 and 2022, respectively. These costs are included in the management service fees paid by the Company to United HealthCare Services, Inc. as a part of the Agreement (see Note 10). The following table discloses paid CAE, incurred CAE, and the balance in unpaid CAE reserve for 2023 and 2022:

	2023	2022
Total claims adjustment expenses	938,222	$ 1,063,892
Less: current year unpaid claims adjustment expenses	(6,869)	(7,536)
Add: prior year unpaid claims adjustment expenses	7,536	173,772
Total claims adjustment expenses paid	$ 938,889	$ 1,230,128

Information used to support rebates billed to the manufacturer is based on utilization information gathered by the pharmaceutical benefit manager and adjusted for significant changes in pharmaceutical contract provisions.

The Company evaluates admissibility of all pharmacy rebates receivable based on the administration of each underlying pharmaceutical benefit management agreement. The Company has nonadmitted and excluded all pharmacy rebates receivable that do not meet the admissibility criteria of SSAP No. 84, *Health Care and Government Insured Plan Receivables* (“SSAP No. 84”) from the financial statements.

For each pharmaceutical management agreement for which a portion of the total pharmacy rebates receivable can be admitted based on the admissibility criteria of SSAP No. 84, the pharmacy rebate transaction history is summarized as follows:
