A. Accounting Practices

The financial statements of WellCare Health Insurance Company of Kentucky, Inc. (the “Company”), domiciled in the State of Kentucky, are presented on the basis of accounting practices prescribed or permitted by the Kentucky Department of Insurance (the “Department”).

The Department recognizes only statutory accounting practices prescribed or permitted by the state of Kentucky for determining and reporting the financial condition, results of operations, and cash flows of an insurance company for determining its solvency under Kentucky insurance law. The National Association of Insurance Commissioners’ (“NAIC”) Accounting Practices and Procedures manual, (“NAIC SAP”) has been adopted as a component of prescribed or permitted practices by the state of Kentucky.

A reconciliation of the Company’s net income (loss) and capital and surplus between NAIC SAP and practices prescribed and permitted by the state of Kentucky is shown below:

B. Uses of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in accordance with statutory accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The primary use of estimates are related to the Company’s reserve for claims unpaid. Actual results could differ significantly from those estimates.

C. Accounting Policy

1. Cash and short-term investments are carried at cost, which approximates fair value. Short-term investments include securities purchased within twelve months or less of maturity date.
2. Investment grade bonds (NAIC designations 1 or 2) not backed by other loans are valued at amortized cost using the scientific (constant yield) method. Bonds containing call provisions, except “make whole” call provisions, are amortized to the call or maturity value/date which produces the lowest asset value (yield to worst). Bonds which are below investment grade (NAIC designation 3 to 6) are carried at lower of amortized cost or fair value.
3. The Company holds no common stocks.
4. The Company holds no preferred stocks.
5. The Company holds no mortgage loans.
6. The Company holds no loan-backed securities.
7. The Company has no investment in subsidiaries, controlled or affiliated companies.
8. The Company has no interest in joint ventures.
9. The Company holds no derivatives.
10. The Company reviews expectations regarding the profitability of contracts in force to determine whether a premium deficiency reserve is required. The Company considers anticipated investment income when calculating its premium deficiency reserves. The adequacy of reserve requirements is continually reviewed by management, with any reductions in the reserve being recorded as a beneficial effect in the statement of revenue and expense. The Company has no premium deficiency reserve at December 31, 2020.
11. Unpaid losses and loss adjustment expenses include amounts determined from claims estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount to be adequate, the ultimate liability may be in excess of or less than the

NOTES TO FINANCIAL STATEMENT

amount provided. The methods for making such estimates and for establishing the resulting liability is continually reviewed and any adjustments are reflected in the period determined.

12. The Company has not modified its capitalization policy from the prior period.
13. Pharmaceutical rebates are based on actual pharmaceutical claims experience.

D. Management does not have any substantial doubt about the Company's ability to continue as a going concern.

 2. The Company has no OTTI to recognize.
 3. The Company has not recognized OTTI based on cash flow analysis.
 4. All impaired securities (fair value is less than cost or amortized cost) for which an other-than-temporary impairment has not been recognized in earnings as a realized loss (including securities with a recognized other-than-temporary impairment for non-interest related declines when a non-recognized interest related impairment remains):
 - a. The aggregate amount of unrealized losses:

1. Less than 12 Months	\$	48,239
2. 12 Months or Longer	\$	—

- b. The aggregate related fair value of securities with unrealized losses:

1. Less than 12 Months	\$	15,675,551
2. 12 Months or Longer	\$	—

5. For any security in an unrealized loss position, the Company assesses whether it intends to sell the security or if it is more likely than not that the Company will be required to sell the security before recovery of the amortized cost basis for reasons such as liquidity, contractual or regulatory purposes. If the security meets this criterion, the decline in fair value is other-than-temporary and is recorded in earnings. The Company does not intend to sell these securities prior to maturity; therefore, there is no indication of other than temporary impairment of these securities.

For loan-backed securities in an unrealized loss position, management further evaluates whether the collection of all cash flows is probable. Management utilizes the prospective adjustment method to evaluate the present value of future cash flows. For those loan-back and structured securities (NAIC designated 1 or 2) where management has determined that collection of all contractual cash flows is not probable, the securities are considered other than temporarily impaired to the extent amortized cost is greater than the present value of future cash flows.

The Company does not intend to sell these securities prior to maturity; therefore, there is no indication of other than temporary impairment.
