1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying financial statements of Arkansas Superior Select, Inc. ("ASSI" or the "Company") have been prepared in conformity with accounting practices prescribed or permitted by the state of Arkansas for determining and reporting the financial conditions and results of operations of an insurance company for determining its solvency under Arkansas Insurance law. The National Association of Insurance Commissioners ("NAIC") Accounting Practices and Procedures Manual, ("NAIC SAP") has been adopted as a component of prescribed or permitted practices by the state of Arkansas.

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the state of Arkansas is shown below:

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

- (1) Short-term investments are stated at amortized cost.
- (2) The Company had no bonds, mandatory convertible securities and SVO-identified investments.
- (3) The Company had no common stock.
- (4) The Company had no preferred stock.
- (5) The Company had no mortgage loans.
- (6) The Company had no loan-backed securities.
- (7) The Company had 1 affiliated investment in Access Medical Clinic Arkansas reported using the GAAP equity method. However, the Company chose to non-admit the asset value of this investment.
- (8) The Company had no investments in joint ventures, partnership, or limited liability companies.
- (9) The Company had no derivatives.
- (10) The Company does not utilize anticipated investment income as a factor in the premium deficiency calculation.
- (11) Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability, are continually reviewed and any adjustments are reflected in the period determined.
- (12) The Company capitalizes, depreciates or amortizes, and admits EDP equipment and operating software in accordance with SSAP No. 16R. The Company also capitalizes furniture, fixtures and equipment, and leasehold improvements, and nonadmits them in accordance with SSAP No. 19.
- (13) Pharmacy rebates are recorded based on the estimate letter provided by the pharmacy benefit manager, Elixir.

D. Going Concern

After management's evaluation of the company's ability to continue as a going concern, there is no substantial doubt pertaining to the company's ability to meet its obligations. While administrative expenses remain high, organizational changes continue to be put into place that have shown to be more efficient and cost-effective. These changes include value based contracting with providers and effective management of care.

20. Fair Value Measurements

A. Fair Value Measurement

The Company's financial assets and liabilities carried at fair value have been classified, for disclosure purposes, based on a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The hierarchy gives the highest priority to fair values determined using unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to fair values determined using unobservable inputs (Level 3). An asset's or liability's classification is determined based on the lowest level input that is significant to its measurement.

For example, a Level 3 fair value measurement may include inputs that are both observable (Levels 1 and 2) and unobservable (Level 3). The levels of the fair value hierarchy are as follows:

- Level 1: Inputs are unadjusted, quoted prices for identical assets or liabilities in active markets at the measurement date.
- Level 2: Inputs are other than quoted prices included in level 1 that are observable for the asset or liability through corroboration with market data at the measurement date.
- Level 3: Inputs are unobservable and reflect management's best estimate of what market participants would use in pricing the asset or liability at the measurement date.

Fair value of actively traded fixed-income and equity securities is based on quoted market prices. Fair value of inactively traded fixed-income securities is based on quoted market prices of identical or similar securities based on observable inputs like interest rates using a market valuation approach is generally classified as Level 2. Investments measured based on the practical expedient being net asset value (NAV), based on the NAV of the fund as provided for in the audited financial statements and other fund reporting, are generally classified as Level 3.
