MCNA Health Care Holdings, LLC is an indirect wholly owned subsidiary of United Healthcare Services, Inc., United HealthCare Services Inc. is a wholly owned subsidiary of UnitedHealth Group Incorporated. The Company's Arkansas Medicaid contract also ended effective October 31, 2024 with no renewal.

A. Accounting Practices

The statutory basis financial statements (herein referred to as “financial statements”) are presented on the basis of accounting practices prescribed or permitted by the Texas Department of Insurance.

The Texas Department of Insurance recognizes only statutory accounting practices, prescribed or permitted by the state of Texas, for determining and reporting the financial condition and results of operations of a life, accident, and health insurer, for determining its solvency under Texas Insurance Law. The state of Texas prescribes the use of the National Association of Insurance Commissioners' Accounting Practices and Procedures manual in effect for the accounting periods covered in the financial statements.

No significant differences exist between the practices prescribed or permitted by the state of Texas and the National Association of Insurance Commissioners' Accounting Practices and Procedures manual, also known as NAIC SAP, which materially affect the statutory basis net income (loss) and capital and surplus, as illustrated in the table below:

Net Income (Loss)	SSAP #	F/S Page #	F/S Line #	2025	2024

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of these financial statements in conformity with the National Association of Insurance Commissioners' Annual Statement Instructions and the National Association of Insurance Commissioners' Accounting Practices and Procedures manual include certain amounts that are based on the Company's estimates and judgments. These estimates require the Company to apply complex assumptions and judgments, often because the Company must make estimates about the effects of matters that are inherently uncertain and will change in subsequent periods. The most significant estimates relate to other professional services, claims unpaid, aggregate health policy reserves (including medical loss ratio rebates and premium deficiency reserves and redetermination contract payables), risk corridor, and risk adjustment estimates. The Company adjusts these estimates each period as more current information becomes available. The impact of any changes in estimates is included in the determination of net income (loss) in the period in which the estimate is adjusted.

C. Accounting Policy

Basis of Presentation — The Company prepares its financial statements on the basis of accounting practices prescribed or permitted by the Texas Department of Insurance. These statutory practices differ from generally accepted accounting principles in the United States of America.

The Company has deemed the following to be significant differences between statutory practices and generally accepted accounting principles:

- Certain debt investments categorized as available-for-sale or held-to-maturity under generally accepted accounting principles are presented at the lower of book/adjusted carrying value or fair value in accordance with the National Association of Insurance Commissioners' designations in the financial statements, whereas under generally accepted accounting principles, these investments are shown at fair value or book/adjusted carrying value, respectively.
- Cash, cash equivalents, and short-term investments in the financial statements represent cash balances and investments with original maturities of one year or less from the time of acquisition, whereas under generally accepted accounting principles, the corresponding caption of cash, cash equivalents, and short-term investments includes cash balances and investments that will mature in one year or less from the balance sheet date. The Company reported \$0 and \$0 short-term investments as of December 31, 2025 and 2024, respectively.
- Outstanding checks are required to be netted against cash balances in the financial statements, whereas under generally accepted accounting principles, outstanding checks are presented as other liabilities.
- The statutory basis statements of cash flows reconcile the corresponding captions of cash, cash equivalents, and short-term investments, which can include restricted cash reserves, with original maturities of one year or less from the time of acquisition, whereas under generally accepted accounting principles, the statements of cash flows reconcile the corresponding captions of cash, cash equivalents, and restricted cash with maturities of three months or less. Short-term investments with a final maturity of one year or less from the balance sheet date are not included in the reconciliation of generally accepted accounting principles cash flows. In addition, there are classification differences within the presentation of the cash flow categories between generally accepted accounting principles and National Association of Insurance Commissioners' Accounting Practices and Procedures manual. The statutory basis statements of cash flows are prepared in accordance with the National Association of Insurance Commissioners' Annual Statement Instructions.
- The National Association of Insurance Commissioners' Accounting Practices and Procedures manual provides for an amount to be recorded for deferred taxes on temporary differences between the financial reporting and tax basis of assets, subject to a valuation allowance and admissibility limitations on deferred tax assets, and tax basis of liabilities (see Note 9). In addition, under the National Association of Insurance Commissioners' Accounting Practices and Procedures manual, the net change in deferred tax assets and/or liabilities is recorded directly to unassigned funds (surplus) in the financial statements, whereas under generally accepted accounting principles, the net change in deferred tax assets and/or liabilities is recorded as a component of the income tax provision within the income statement and is based on the ultimate recoverability of the deferred tax assets. Based on the admissibility criteria under the National Association of Insurance Commissioners' Accounting Practices and Procedures manual, any deferred tax assets determined to be nonadmitted are charged directly to surplus and excluded from the financial statements, whereas under generally accepted accounting principles, such assets are included in the balance sheet.
- Certain assets, including prepaid expenses are considered nonadmitted assets under the National Association of Insurance Commissioners' Accounting Practices and Procedures manual and are excluded from the financial statements and charged directly to unassigned funds (surplus).
- Comprehensive income and its components are not separately presented in the financial statements, whereas under generally accepted accounting principles, it is a requirement to present comprehensive income and its components in the financial statements.

Accounting policy disclosures that are required by the National Association of Insurance Commissioners' Annual Statement instructions are as follows:

- (1–2) Bonds include maturities of greater than one year and greater than three months but less than one year at the time of purchase, respectively. Bonds are stated at book/adjusted carrying value if they meet National Association of Insurance Commissioners designation of one or two and stated at the lower of book/adjusted carrying value or fair value if they meet National Association of Insurance Commissioners' designation of three or higher. The Company does not have any mandatory convertible securities or Securities Valuation Office of the National Association of Insurance Commissioners identified funds (i.e.: exchange traded funds or bond mutual funds) in its bond portfolio. Amortization of bond premium or accretion of discount is calculated using the constant yield interest method. Bonds and short-term investments are valued and reported using market prices published by the Securities Valuation Office in accordance with the National Association of Insurance Commissioners' Valuation of Securities manual prepared by the Securities Valuation Office or an external pricing service.
- (3–4) The Company holds no common or preferred stock.
- (5) The Company holds no mortgage loans on real estate.

- (6) Issuer credit obligations and asset-backed securities include U.S. government obligations and agency securities, corporate debt securities and mortgage backed securities, which are valued using the retrospective adjustment methodology. Prepayment assumptions for the determination of the book/adjusted carrying value, commonly referred to as amortized cost, of asset-backed securities are based on a three-month constant prepayment rate history obtained from external data source vendors. The Company's investment policy limits investments in nonagency residential mortgage-backed securities, including home equity and sub-prime mortgages, to 10% of total cash and invested assets. Total combined investments in mortgage-backed securities and asset-backed securities cannot exceed more than 30% of total cash and invested assets.
- (7) The Company holds no investments in subsidiaries, controlled, or affiliated entities.
- (8) The Company has no investment interests with respect to joint ventures, partnerships, or limited liability companies.
- (9) The Company holds no derivatives.
- (10) Premium deficiency reserves and the related expenses are recognized when it is probable that expected future health care expenses, claims adjustment expenses, direct administration costs, and an allocation of indirect administration costs under a group of existing contracts will exceed anticipated future premiums and reinsurance recoveries considered over the remaining lives of the contracts, and are recorded as aggregate health policy reserves in the financial statements. Indirect administration costs arise from activities that are not specifically identifiable to a specific group of existing contracts, and therefore, those costs are fully allocated among the various contract groupings. The allocation of indirect administration costs to each contract grouping is made proportionately to the expected margins remaining in the premiums after future health care expenses, claims adjustment expenses and direct administration costs are considered. The data and assumptions underlying such estimates and the resulting reserves are periodically updated, and any adjustments are reflected as an increase in reserves for life and accident and health contracts in the financial statements in the period in which the change in estimate is identified. The Company does not anticipate investment income as a factor in the premium deficiency reserves calculation (see Note 30).
- (11) Claims adjustment expenses are those costs expected to be incurred in connection with the adjustment and recording of dental claims. Pursuant to the terms of the management agreement (see Note 10), the Company pays a management fee to its affiliate, MCNA Health Care Holdings, LLC, in exchange for administrative and management services. The Company allocates a portion of general administrative expenses to claims adjustment expenses based on a stated percentage of other professional services expenses. It is the responsibility of MCNA Health Care Holdings, LLC to pay claims adjustment expenses in the event the Company ceases operations. The Company has recorded an estimate of unpaid claims adjustment expenses associated with incurred but unpaid claims, which is included in unpaid claims adjustment expenses in the financial statements. Management believes the amount of the liability for unpaid claims adjustment expenses as of December 31, 2024 is adequate to cover the Company's cost for the adjustment and recording of unpaid claims; however, actual expenses may differ from those established estimates. Adjustments to the estimates for unpaid claims adjustment expenses are reflected in operating results in the period in which the change in estimate is identified.
- (12) The Company does not carry any fixed assets in the financial statements.
- (13) The Company does not carry any health care and other amounts receivable.

The Company has also deemed the following to be significant accounting policies:

ASSETS AND LIABILITIES

- **Cash, Cash Equivalents and Other Invested Assets** — Cash represents cash held by the Company in disbursement accounts. Claims and other payments are made from the disbursement daily. Cash overdrafts are a result of timing differences in funding disbursement accounts for claims payments. Cash equivalents include securities that have original maturity dates of three months or less from the date of acquisition. Cash equivalents, excluding money-market funds, are reported at cost or book/adjusted carrying value depending on the nature of the underlying security, which approximates fair value. Money-market funds are reported at fair value or net asset value as a practical expedient.
- **Premiums and Considerations / Aggregate Health Policy Reserves** — The Company reports uncollected premium balances from state Medicaid agencies as premiums and considerations in the financial statements. Uncollected premium balances that are over 90 days past due, with the exception of amounts due from government insured plans, are considered nonadmitted assets. In addition to those balances, current balances are also considered nonadmitted if the corresponding balance greater than 90 days past due is deemed more than inconsequential. The Company establishes a liability for estimated accrued retrospective and redetermination premiums related to performance guarantee payables to the applicable state agencies based on the estimated calculation as outlined in the respective contract provisions (see Note 24), which is included in aggregate health policy reserves in the financial statement.

Premiums and considerations and aggregate health policy reserves could include premium adjustments estimated medical loss ratio rebates payable on the Medicaid Plans, and Medicaid risk corridor programs which are accounted for as premium adjustments subject to retrospectively rated features (see Note 24). Premium adjustments for the pay for performance payables are accounted for as premium adjustments subject to redetermination (see Note 24). Aggregate health policy reserves also includes the liability for premium deficiency reserves (see Note 30).

- **Claims Unpaid** — The Company contracts with various independent providers to provide services to covered enrollees. Claims unpaid include claims processed but not yet paid, estimates for claims received but not yet processed, and estimates for the costs of services enrollees have received, but for which claims have not yet been submitted. The estimates for incurred but not reported claims are developed using actuarial methods based upon historical submission and payment data, cost trends, customers and product mix, seasonality, utilization of services, contracted service rates, and other relevant factors including product changes. The estimates may change as actuarial methods change or as underlying facts upon which estimates are based change. The Company did not change actuarial methods during the years ended December 31, 2025 and 2024. Management believes the amount of claims unpaid is the best estimate for the Company's liability for unpaid claims as of December 31, 2025; however, actual claim payments may differ from those established.
- **Premiums Received in Advance** — Premiums received in full for the policies processed during the current period, but prior to the commencement of the service period, are recorded as premiums received in advance in the financial statements.
- **Borrowed Money and Interest Thereon** — Borrowed money and interest thereon consists of principal outstanding and interest thereon attributable to a subordinated revolving line of credit agreement with United Healthcare Services, Inc. (see Note 11).
- **Receivables from / Amounts Due to Parent, Subsidiaries, and Affiliates** — In the normal course of business, the Company has various transactions with related parties (see Note 10). The Company reports any net unsettled amounts due or owed as receivables from parent, subsidiaries, and affiliates or amounts due to parent, subsidiaries, and affiliates, respectively, in the financial statements. The Company has excluded receivables that do not meet the admissibility criteria from the financial statements.

CAPITAL AND SURPLUS AND MINIMUM STATUTORY REQUIREMENTS

- **Restricted Cash Reserves** — The Company is in compliance with the state of Texas and the various states regulatory deposit requirements as of December 31, 2025 and 2024, respectively, for qualification purposes as a domestic and foreign insurer. These restricted cash reserves are stated at book/adjusted carrying value, which approximates fair value. These restricted deposits are included in bonds in the financial statements. Interest earned on these deposits accrues to the Company (see Note 5).
- **Minimum Capital and Surplus** — Under the laws of the state of Texas, the Company's domiciliary state, Texas Department of Insurance requires the Company to maintain a minimum capital and surplus equal to the greater of \$20,000,000 or the lesser of a net written premium-to-surplus ratio no greater than ten-to-one and 350% of the Company's authorized control level risk based capital amount. The minimum capital and surplus requirements were \$55,442,300 and \$59,987,965, for December 31, 2025 and 2024, respectively.

Risk-based capital is a regulatory tool for measuring the minimum amount of capital appropriate for a life, accident, and health insurer to support its overall business operations in consideration of its size and risk profile. The Texas Department of Insurance requires the Company to maintain minimum capital and surplus equal to the greater of the state statute as outlined above, or the level needed to avoid action pursuant to the trend test in the risk-based capital formula.

The Company is also subject to minimum capital and surplus requirements in other states where it is licensed to do business.

The Company is in compliance with the minimum required capital and surplus amounts where it is licensed to do business, as of December 31, 2025 and 2024.

STATEMENTS OF OPERATIONS

- **Net Premium Income and Change in Unearned Premium Reserves and Reserve for Rate Credits** — Revenues consist of net premium income that is recognized in the period in which enrollees are entitled to receive health care services.

In addition, the Company's Medicaid contracts are subject to experience rated rebates, including medical loss ratio requirements and risk corridor programs and performance guarantees based on various utilization measures. The Company records premium adjustments for the changes to the estimates for minimum loss ratio requirements which are reflected in change in unearned premium reserve for rate credits and for performance guarantees which are reflected in net premium income in the financial statements (see Note 24).

Net premium income also includes dental revenue derived from managed dental care plans. Dental revenue is recognized in the period in which enrollees are entitled to receive services.

- **Other Professional Services** — Other professional services include claims and capitation paid, claims processed but not yet paid, estimates for claims received but not yet processed, and estimates for the costs of dental care services enrollees have received but for which claims have not yet been submitted on the Company's dental product offerings.

- **General Administrative Expenses** — General expenses that have been paid as of the reporting date in addition to general expenses that have been incurred but are not due until a subsequent period are reported as general administrative expenses. Pursuant to the terms of the management agreement (see Note 10), the Company pays a management fee to MCNA Health Care Holdings, LLC in exchange for administrative and management services. State income taxes are also a component of general administrative expenses.

Prior to January 1, 2025, pursuant to the terms of the dental administrative services agreement with Managed Care of North America, Inc., the Company pays an administrative fee to Managed Care of North America, Inc. for Operations support in the states the Company conducts business. Effective January 1, 2025, similar services are now being provided pursuant to the terms of the management agreement with MCNA Health Care Holdings, LLC (see Note 10). Costs for items not included within the scope of the management agreement are directly expensed as incurred.

- **Federal Income Taxes Incurred** — The provision for federal income taxes incurred is calculated based on applying the statutory federal income tax rate of 21% to net income or (loss) before federal income taxes (see Note 9).

OTHER

- **Vulnerability Due to Certain Concentrations** — The Company is subject to substantial federal and state government regulation, including licensing and other requirements relating to the offering of the Company's existing products in new markets and offerings of new products, both of which may restrict the Company's ability to expand its business. The business is subject to normal claims fluctuations and environmental issues.

The Company has Medicaid contracts with the states of Idaho, Iowa, Louisiana, Texas and Utah to serve the Medicaid populations, which represents 100% of total direct premiums written as of December 31, 2025 and 2024.

The Company adopted the new requirement on the effective date.

The Company reviewed all other recently issued guidance in 2025 and 2024 that has been adopted for 2025 or subsequent years' implementation and has determined that none of the items would have a significant impact to the financial statements.

The unrecognized unrealized losses on investments in issuer credit obligations and asset-backed securities at December 31, 2025 and 2024, were mainly caused by interest rate fluctuations and not by unfavorable changes in the credit ratings associated with these securities. The Company evaluates impairment at each reporting period for each of the securities whereby the fair value of the investment is less than its book/adjusted carrying value. The contractual cash flows of issuer credit obligations and asset-backed securities related to U.S. government and agency securities are guaranteed either by the U.S. government or an agency of the U.S. government. It is expected that the securities would not be settled at a price less than the cost of the investment, and the Company does not intend to sell the investment until the unrealized loss is fully recovered. The Company assessed the credit quality of the issuer credit obligations and asset-backed securities related to state and agency municipal securities, city and county municipal securities and corporate debt securities, noting whether a significant deterioration since purchase or other factors that may indicate an other-than-temporary impairment, such as the length of time and extent to which fair value has been less than cost, the financial condition, and near-term prospects of the issuer as well as specific events or circumstances that may influence the operations of the issuer and the Company's intent to sell the investment. Additionally, the Company evaluated its intent and ability to retain asset-backed securities for a period of time sufficient to recover the amortized cost. As a result of this review, no other-than-temporary impairments were recorded by the Company as of December 31, 2025 and 2024.

A-C. The Company has no mortgage loans, real estate loans, restructured debt, or reverse mortgages. The Company also has no real estate property occupied by the Company, real estate property held for the production of income, or real estate property held for sale.

D. Asset-Backed Securities

- (1) Asset-backed securities include U.S government obligations and agency securities, corporate debt securities and mortgage backed securities, which are valued using the retrospective adjustment methodology. Prepayment assumptions for the determination of the book/adjusted carrying value, commonly referred to as amortized cost, of asset-backed securities are based on a three-month constant prepayment rate history obtained from external data source vendors.
- (2) The Company did not recognize any other-than-temporary impairments on asset-backed securities as of December 31, 2025.
- (3) The Company did not have any asset-backed securities with other-than-temporary impairments to report by CUSIP as of December 31, 2025 or 2024.
- (4) The following table illustrates the fair value, gross unrecognized unrealized losses, and length of time that the asset-backed securities have been in a continuous unrecognized unrealized loss position as of December 31, 2025 and 2024:

	2025
The aggregate amount of unrealized losses:	
1. Less than 12 months	\$ —
2. 12 months or longer	5,285,108
The aggregate related fair value of securities with unrealized losses:	
1. Less than 12 months	—
2. 12 months or longer	32,422,010
	2024
The aggregate amount of unrealized losses:	
1. Less than 12 months	\$ 51,319
2. 12 months or longer	7,516,659
The aggregate related fair value of securities with unrealized losses:	
1. Less than 12 months	4,436,150
2. 12 months or longer	39,661,159

(5) The Company believes that it will continue to collect timely the principal and interest due on its asset-backed securities that have an amortized cost in excess of fair value. The unrealized losses were primarily caused by interest rate changes and not by unfavorable changes in the credit quality associated with these securities that impacted the assessment on collectability of principal and interest. At each reporting period, the Company evaluates available-for-sale debt securities for any credit-related impairment when the fair value of the investment is less than its amortized cost. The Company evaluated the expected cash flows and the underlying credit quality and credit ratings of the issuers, noting no significant credit deterioration since purchase. As of December 31, 2025, the unrealized loss on any security that the Company classified as available-for-sale was not material to the Company's investment portfolio. Any other securities in an unrealized loss position as of December 31, 2025, the Company considers to be temporary.

The Company's business is regulated at the federal, state, and local levels. The laws and rules governing the Company's business and interpretations of those laws and rules are subject to frequent change. Broad latitude is given to the agencies administering those regulations. Further, the Company must obtain and maintain regulatory approvals to market and sell many of its products.

The Company has been, or is currently, involved in various governmental investigations, audits and reviews. These include routine, regular, and special investigations, audits and reviews by Centers for Medicare and Medicaid Services, state insurance and health and welfare departments and other governmental authorities. The Company cannot reasonably estimate the range of loss, if any, that may result from any material government investigations, audits and reviews in which it is currently involved given the inherent difficulty in predicting regulatory action, fines and penalties, if any, and the various remedies and levels of judicial review available to the Company in the event of an adverse finding.

Because of the nature of its businesses, the Company is frequently made party to a variety of legal actions and regulatory inquiries, including class actions and suits brought by members, care providers, consumer advocacy organizations, customers, and regulators, relating to the Company's businesses, including management and administration of health benefit plans and other services.

The Company records liabilities for its estimates of probable costs resulting from these matters where appropriate. Estimates of costs resulting from legal and regulatory matters involving the Company are inherently difficult to predict, particularly where the matters involve: indeterminate claims for monetary damages or may involve fines, penalties or punitive damages; present novel legal theories or represent a shift in regulatory policy; involve a large number of claimants or regulatory bodies; are in the early stages of the proceedings; or could result in a change in business practices. Accordingly, the Company is often unable to estimate the losses or ranges of losses for those matters where there is a reasonable possibility, or it is probable that a loss may be incurred. Although the outcomes of any such legal actions cannot be predicted, in the opinion of management, the resolution of any currently pending or threatened actions will not have a material adverse effect on the financial statements of the Company.

The Company routinely evaluates the collectability of all receivable amounts included in the financial statements. Impairment reserves are established for those amounts where collectability is uncertain. Based on the Company's past experience, exposure related to uncollectible balances and the potential of loss for those balances not currently reserved for is not material to the Company's statutory basis financial condition.

As previously disclosed, the Company has been subject to claims from persons or organizations alleging they suffered damages from the March 6, 2023 cybersecurity incident or related actions by governmental authorities, but the amount of damages, fines, penalties or costs, if any, cannot be reasonably estimated at this time. The Company continues to monitor the situation.

There are no assets that the Company considers to be impaired at December 31, 2025 and 2024, except as disclosed in Note 5 and Note 20.

20. FAIR VALUE MEASUREMENTS

The National Association of Insurance Commissioner Practices and Procedures manual defines fair value, establishes a framework for measuring fair value, and outlines the disclosure requirements related to fair value measurements. The fair value hierarchy is as follows:

Level 1 — Quoted (unadjusted) prices for identical assets in active markets.

Level 2 — Other observable inputs, either directly or indirectly, including:

- Quoted prices for similar assets in active markets;
- Quoted prices for identical or similar assets in nonactive markets (few transactions, limited information, noncurrent prices, high variability over time, etc.);
- Inputs other than quoted prices that are observable for the asset (interest rates, yield curves, volatilities, default rates, etc.);
- Inputs that are derived principally from or corroborated by other observable market data.

Level 3 — Unobservable inputs that cannot be corroborated by observable market data.

The estimated fair values of bonds and cash equivalents are based on quoted market prices, where available. The Company obtains one price for each security primarily from a third-party pricing service, which generally uses quoted prices or other observable inputs for the determination of fair value. The third-party pricing service normally derives the security prices through recently reported trades for identical or similar securities, making adjustments through the reporting date based upon available observable market information. For securities not actively traded, the third-party pricing service may use quoted market prices of comparable instruments or discounted cash flow analyses, incorporating inputs that are currently observable in the markets for similar securities. Inputs that are often used in the valuation methodologies include, but are not limited to, non-binding broker quotes, benchmark yields, credit spreads, default rates, and prepayment speeds. As the Company is responsible for the determination of fair value, it performs quarterly analyses on the prices received from the third-party pricing service to determine whether the prices are reasonable estimates of fair value. Specifically, the Company compares the prices received from the third-party pricing service to a secondary pricing source, prices reported by its custodian, its investment consultant, and third-party investment advisors. Additionally, the Company compares changes in the reported market values and returns to relevant market indices to test the reasonableness of the reported prices. The Company's internal price verification procedures and review of fair value methodology documentation provided by independent third-party pricing services have not historically resulted in an adjustment in the prices obtained from the third-party pricing service.

In instances in which the inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest-level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular item to the fair value measurement in its entirety requires judgment, including the consideration of inputs specific to the asset or liability.

U.S. government and agency securities, state and agency municipal securities, city and county municipal securities, and corporate debt securities are now included as a component of issuer credit obligations and asset-backed securities as of December 31, 2025, whereas in 2024, these securities were listed in separate categories. The current year disclosures and corresponding tables reflect this change in presentation. No presentation change has been made to the prior year tables.

The following tables disclose paid claims, incurred claims, and the balance in claims unpaid for the years ended December 31, 2025 and 2024:

	2025

End of year claim reserve	27,591,475	(1,632)	27,589,843
Total incurred claims	\$ 567,458,944	\$ (8,160,600)	\$ 559,298,344

	2024		
	Current Year Incurred Claims	Prior Years Incurred Claims	Total
Beginning of year claim reserve	\$ —	\$ (41,435,568)	\$ (41,435,568)
Paid claims	587,906,109	43,183,924	631,090,033
End of year claim reserve	34,376,721	529,840	34,906,561
Total incurred claims	\$ 622,282,830	\$ 2,278,196	\$ 624,561,026

The liability for claims unpaid as of December 31, 2024 was \$34,906,561. As of December 31, 2025, \$26,747,593 has been paid for incurred claims attributable to insured events of prior years. Therefore, there has been \$8,160,600 favorable prior year development since December 31, 2024 to December 31, 2025. The primary drivers consist of favorable development of \$6,370,114 in retroactivity for dental claims and favorable development of \$1,790,486 as a result of a change in the provision for adverse deviations in experience.

As of December 31, 2024, \$43,183,924 had been paid for incurred claims attributable to insured events of prior years. Reserves remaining for prior years, were \$529,840 as a result of re-estimation of unpaid claims. Therefore, there has been \$2,278,196 unfavorable prior year development since December 31, 2023 to December 31, 2024. The primary drivers consist of unfavorable development of \$3,949,497 in retroactivity for dental claims offset by favorable development of \$1,671,301 as a result of change in the provision for adverse deviations in experience. Original estimates are increased or decreased as additional information becomes known regarding individual claims, which could have an impact to the accruals for medical loss ratio rebates and retrospectively rated contracts. As a result of the prior year effects, on a regular basis, the Company adjusts revenue and the corresponding liability and/or receivable related to retrospectively rated policies and the impact of the change is included as a component of change in unearned premium reserves and reserve for rate credits in the financial statements.

The Company incurred claims adjustment expenses of \$10,123,715 and \$19,161,052 in 2025 and 2024, respectively. These costs are included in the management service fees paid by the Company to MCNA Health Care Holdings, LLC as a part of the management agreement (see Note 10). The following table discloses paid claims adjustment expenses, incurred claims adjustment expenses, and the balance in unpaid claims adjustment expenses reserve for 2025 and 2024:
